## COMPLICATION IN CHINESE NAMES

CHINESE FATHER WHO SIGNED FOR SON

### REMARKABLE LAND DEAL

The reason why Chinese have so many aliases was threshed out at the Supreme Court this morning during the resumed hearing of the case in which a Chinese merchant sues his own son and another for a declaration that he is entitled to equity as against the defendants to two pieces of lands; a moiety of which his son was alleged to have mortgaged for the sum of \$25,000.

The parties in the action are Li Po-kwai, alias Li Kan, and the defendants are Tsang Chuen and Li Nga-ching (son of the plaintiff).

Mr. Eldon Potter, K.C., and Mr. F. C. Jenkin, instructed by Messrs. Hastings, Denny and Bowley, are appearing for the plaintiff and the first defendant is represented by Mr. C. G. Alabaster, K.C., instructed by Messrs. D'Almeida and Mason.

Assigned to Himself  
Plaintiff in his evidence in chief stated that he was a merchant and a Justice of the Peace in Hong Kong. He made an assignment of the property in question to himself, under the name of Li Kan, and to his son Li Nga-ching. He did not, however, intend to confer any beneficial interests upon his son, and the latter was not made aware of the execution of the assignment. Some time later, the son discovered that such an assignment was made, and plaintiff now found that the property had been, or purported to have been mortgaged to the first defendant. His son's whereabouts were unknown.

In English and Chinese  
Cross-examined by Mr. Alabaster, plaintiff said that although in the assignment he acknowledged the receipt of \$16,000 in consideration of such assignment, he had in fact never received any money. He made that assignment for the purpose of marking out his various leasehold properties; and that, if his four sons behaved themselves well, they would each get a share. By making out the assignment in that way, he thought he reserved to himself the right of cancelling his sons' title if they did not prove worthy.

Mr. Alabaster: You signed that document in the name of Li Po-kwai in Chinese and Li Hung-chun in English?—Yes.

Why did you do that? Did you intend people to understand from that that the parties were two separate persons, and that one of them preferred to write his name in Chinese and the other in English?—I did not want it to be so understood. Were the two names written by you?—Yes they were.

A "Milk" Name  
Questioned further as to the multiple names, plaintiff said that Li Kan was his "milk" name, and every people knew him by that. A "milk" name, he explained, was one that was generally given to a suckling child by its mother or nurse, but its use was not necessarily confined to the child's mother and/or nurse.

Mr. Alabaster: When you entered school, you got another name, did you not?—I was still called Li Kan by people who knew me, but in the school I was registered as Li Hung-chun.

Then who is Li Po-kwai?—That name is one of my aliases.

What is a Pige Teze?—Also means an alias.

Plaintiff then went on to say that most people knew him as Li Po-kwai, and that was a name he adopted after leaving school.

Heard it Many Times  
Asked if he had filed a memorial with the Land Office of the assignment in question, witness admitted that he had. That memorial was signed in the names of Li Hung-chun and Li Po-kwai over to Li Kan and Li Nga-ching, but he had never received any money for it.

His Lordship: We have heard that many times, please confine yourself to the question asked.

Mr. Alabaster: In that memorial with the Land Office, you must have known that it becomes a public document—one that was available to everybody?—I do not

## EVADED FARE

American Stowaway Ready to Pay Fine

### THE COURTS CUSTOM

"Well, I am going to pay my fine, and get free," said John Baker, a young citizen of U.S.A., when at the Kowloon Magistracy this morning he was fined \$50 or, in default one month's imprisonment, for stowing away from Shanghai to this port on the M.M. Chenoncaux, on March 24.

Det. Sergt. Kellet, of the Water Police, stated that the defendant gave himself up, after four hours' sailing from Shanghai. He had \$80 (gold) in travellers' cheques concealed in his socks.

Baker, after he had been fined, said that he did not fully understand the whole thing. He was unwilling to pay either for first or second class passage but was willing to pay for third class which was \$2 for storage.

His Worship said that what the defendant did do was tantamount to fraud, because he evaded payment for his passage.

The defendant remarked that he was willing to pay the Company what he ought to have paid.

His Worship pointed out that he need not pay the shipping people any money at all, but pay his fine, which was \$50 or go to prison for one month. His Worship pointed out also that it had never been his practice to let a stowaway go out of the dock by just agreeing to pay what he should have paid prior to travelling on a ship. He invariably fined them \$50, with the alternative of one month's jail.

Chinese Convicted  
Charged with stowing away on the J.C.L. Tjmanock, from Amoy to Hong Kong, an unemployed Chinese, who was found in the hold of the ship, pleaded guilty at the Kowloon Magistracy this morning and was fined \$50 with the option of one month's jail.

## ARMED GUARDS

Cost At Least £80,000 Annually

London, Yesterday.

In the House of Commons at questions time the Parliamentary Secretary to the Admiralty said that the cost of an adequate system of armed guards aboard ships, if marines were employed, would be at least £80,000 annually.—Reuter.

### Adequate Protection

London, Yesterday.

A deputation representing the Mercantile Officers' Federation and British companies trading in China waited on Mr. W. Ammon to demand adequate protection against piracy in China Seas.—Reuter.

know the regulations in the Land Office.

And in that document you acknowledged that you Li Hung-chun, alias Li Po-kwai, have signed over your property to Li Kan and Li Nga-ching?—Yes.

Though He was Right  
Plaintiff was then asked about an advertisement which he had inserted in connection with the property. In that advertisement he used the name of Li Po-kwai, but he felt sure that anyone who knew him would at once know that it referred to him, and that was the reason he did not use the other names.

Plaintiff further admitted that, after executing the assignment in 1917, he leased his property out to another party for five years in 1927. That lease was executed in Messrs. Lo and Lo's office. He signed the lease himself in the name of Li Kan and Li Nga-ching.

Mr. Alabaster: But what authority have you to use another man's name?—That was my son's name and I thought I had the right to use it.

Questioned further, witness stated that the two signatures were put on the document in the presence of Mr. M. W. Lo. (He was not sure whether Mr. Lo knew about it or not. Mr. Lo was in the office and was walking to and from the room.)

A memorial of that lease was also filed with the Land Office, and he again signed for himself and his son.

The case is proceeding.

## CRITICAL STAGE AT CONFERENCE

FIRST LORD OF ADMIRALTY DEPRECATES PESSIMISM

### GENUINE DESIRE FOR PEACE

London, Yesterday.

Mr. A. V. Alexander, First Lord of the Admiralty, in a speech in London alluding to "the critical stage" of the Naval Conference, deprecated pessimism because, far from failure, there was every indication of substantial progress likely to be made in certain directions, and the Prime Minister was doing his utmost to secure a Five Power agreement. Every country represented at the conference recognised the genuine British desire to help and, in the face of a solemn declaration renouncing war, it was inconceivable that the delegates who came to London for the express purpose should be unable to reach agreement.—Reuter.

### Difficulties Examined

Rugby, Yesterday.

The difficulties confronting the London Naval Conference were further examined this morning at a meeting between the British and the United States delegations, and this evening the Prime Minister had a long conversation with the chief Italian delegate, Signor Grandi, at the House of Commons. The general situation has undergone no appreciable change in the course of the day. The French Minister of Marine Mr. Dumesnil, has returned to London and the Colonial Minister, M. Pictet, is due to-morrow. The date of the return of M. Briand is not yet announced, but he is expected when Parliamentary duties permit.

### The King's Gift

The King has presented the members of all the delegations to the Naval Conference with an autographed gramophone record of His Majesty's speech at the opening of the Conference on January 21. Each record is contained in a royal blue leather case bearing the Royal Coat of Arms.—British Wireless Service.

### Earlier Telegram

London, Yesterday.

The United Kingdom delegation to the Naval Conference, and an hour later the American delegations, met at Downing Street this morning to survey the general position.

British circles state that the conference officially has not yet been wrecked, and it is not likely it will end this week. Experts are still working on the figures. It is untrue that the French delegation has quit London for good. M. Dumesnil returned to-day, M. Pictet comes to-morrow, and M. Briand probably later, but nothing is known of M. Tardieu's plans.

Conversations will continue with a view to seeing what can be done, and these will last a week; hence there will not be any plenary session this week.—Reuter.

### ALLEGED ARSON

A Chinese student, 13 years of age, who was arrested on five charges of arson, was again before Mr. Whyte-Smith at the Kowloon Magistracy this morning. Det. Insp. C. P. Fallon applied for a further remand, for enquiries, which was granted.

### 400 CARS BURNED

Hoboken, Yesterday.  
The fire was brought under control at six o'clock last night. Over four hundred motor cars were burned, the damage now being estimated at four million dollars.—Reuter's American Service.

### A BAN LIFTED

Shanghai, Yesterday.  
The Chinese authorities' postal ban which was imposed on the Shanghai Evening Post on November 6, no reason being given at the time, was lifted to-day.—Reuter.

Yesterday an unemployed Chinese named Cheung Kau (20), living in a hut on the hillside at Saiwanho, Shaodwan, was alleged to have attempted suicide by drinking a quantity of lye. He is now in the Government Civil Hospital in a serious condition.

In the belief that the body of Laurence Griffin, the missing Strathbally Postman, may have been discovered, a recently dug grave, considered as now being examined by the police.

## BRITAIN'S ARMY

REDUCTION OF HOME FORCES TO 148,000

### POLICY IN CHINA

### THE TRUTH ABOUT THE NAVAL BASE

London, Yesterday.

In the House of Commons to-day Mr. Tom Shaw, introducing the Army Estimates, emphasised the progressive reduction of the British military forces to 148,000, and said that the Government did not intend to make another reduction in armaments without an international agreement. The Opposition loudly cheered Mr. Shaw when he said that the facts were confounded by theorists (meaning Labour left wingers), who contended that we should help the cause of general disarmament by ourselves reducing armaments, regardless of other nations.

### Self-Governing China

Mr. Shaw said that the Government's policy in China was sympathetically to watch the efforts of China to establish her own form of Government. The British Government would act in a friendly way with the other Powers to make arrangements to secure the safety of their people in a self-governing China.

He drew attention to the numerical relations of 60,000 men serving in India to India's popula-

## STOP PRESS

London, Yesterday.

According to the newspapers the proposed pact between Britain, America and Japan should be concluded and the Naval Conference should then adjourn for six months within which the French and Italian Governments should try to reach an amicable understanding, each of them meanwhile to undertake not to build any ships.—Reuter.

In view of the exaggerated idea in some quarters as regards the number of white troops in India.

### Wasting Money On War

In a debate that followed the left wing Labour member, Mr. William Cove, moved a resolution expressing the opinion that all military preparation for warfare was wasteful, serving only the needs of the capitalist and of imperialism, and demanding a policy of extensive annual reductions of the military forces and the immediate withdrawal of all state grants for the maintenance of the training corps and cadet corps.

In the course of the debate Sir Laming Worthington Evans declared that he was not surprised that Mr. Shaw was a "little sketchy" in dealing with Singapore, as the Federated Malay States were contributing £92,000; and New Zealand, £29,000, while only £38,000 was being spent, so Mr. Shaw had a profit of £38,000 towards the general army expenditure.

Amendment Defeated  
Mr. I. Cove's amendment was defeated by 274 votes to 21.—Reuter.

### Singapore Base

The debate on the Army Estimates continued until 2 o'clock this morning when the Estimates were agreed. On a vote for work the Conservative, Mr. Walker House, asked whether the reduction of the amount for Singapore represented any change of policy.

Mr. Shinwell replied that undoubtedly there had been a change of policy in the Government. They were slowing up operations at Singapore. Mr. House asked, had there been any cancellation of the work or only a retarding of work. Mr. Shinwell replied that there had been a cancellation of certain items of expenditure.—Reuter.

The Total Forces  
Mr. Tom Shaw, Secretary for War, introduced the Army Estimates.

## TSARIST GENERAL IN "RED" PRISON

GENERAL KOUTIEPOFF SAID TO HAVE BEEN SPIRITED AWAY

### FRENCH IMPLICATED?

Paris, Yesterday.

General Koutiepoft is at present in Lublanska Prison, Moscow, according to the newspaper La Liberté, which declares that he embarked at a spot on the French coast near Hougaux and was spirited to Russia in conformity with the Soviet's intention to arraign Koutiepoft. Some of his co-adjutors object to proving that the French Government was implicated in the anti-Soviet conspiracy.—Reuter.

[The theory that General Koutiepoft has been kidnapped is supported by a policeman named Chauveau, who did not report the matter before because he does not "read the newspapers." He avers that on the day of Koutiepoft's disappearance he saw a motor car near the latter's home, and two men, one of whom was wearing a policeman's uniform, holding down a struggling, bearded man in the back seat. The fact that a policeman was present disarmed Chauveau's suspicions.—Reuter.

All the hospitals and other possible places were unsuccessfully scoured for the well-known Tsarist, General Koutiepoft, a participant in the Denikin and Wrangel campaigns, who left home for a short walk on January 26 and disappeared. The feeling is growing among the Russian refugees that he was lured to death by Bolsheviks, by whom he was cordially hated.]

ates in the House of Commons. He said that they amounted to £40,500,000, showing a net reduction of £605,000. The decrease in expenditure was £1,343,000, but this was largely counterbalanced by a diminution in receipts of £738,000. More than half of the latter was accounted for by the loss of receipts to the army funds from Germany through the evacuation of the Rhine. This loss in a full year would amount to £250,000.

The actual number of forces exclusive of India was estimated at 148,000, compared with 641,000 in 1921, and 186,400 in 1914. As regards the 60,000 men of the British Army in India, Mr. Shaw pointed out that actually there was one British soldier for every 5,000 of the native population. He drew especial attention to these figures, as he was afraid that somewhat exaggerated opinions were held regarding the number of white troops in India.

Theorists Confounded  
Referring to a motion demanding annual extensive reductions in the Army, Mr. Shaw said that the Prime Minister had specifically declared that this country stood for a reduction of armaments by agreement. It was the method also of the League of Nations. It was assumed by some theorists and speculative philosophers that if we reduced considerably and consistently without regard to other nations we should help along general disarmament. Unfortunately the facts confounded the theorists.

The Government, while not merely willing to take part in an agreement for international disarmament, but to take a leading part, was not prepared at the present moment to go further in unilateral action. It seemed to him if one thing had become clearer than another since the War, it was that both economically and politically, whether we liked it or not, we were bound to the international system.

### Public Schools' Corps

With regard to the question as to whether public money should be spent on the Officers' Training Corps, and the Cadet Corps, at public schools, the War Secretary said he had come to a conclusion on definite expert advice that the Officers' Training Corps were really a valuable organisation for providing a supply of officers. So long as the Army existed on a voluntary basis there would have to be some such form of army recruiting.

No compulsion was exercised by the Army Council or on the part of the Government to compel any boys to join these corps. Officers' Training Corps would continue to receive a Government grant. He could not, however, take the same attitude regarding the Cadet Corps. Teachers in elementary and secondary schools appeared to be in the great majority of cases against this particular training on educational grounds. He agreed with those representations and intended, with the consent of the House, to cease to give War Office assistance to these bodies when the existing contracts had expired.—British Wireless Service.

## HOME RACING

Ups and Downs in Spring Doubles

### PUNTERS LOSE THOUSANDS

London, Yesterday.

The betting on the Grand National which has twice been upset—first by a mishap to the favourite, Easter Hero, and then by the poor display of the new favourite, Gregalach, will be revolutionised by the sensational scratching of Easter Hero to-day just after regaining favouritism at 10 to 1 at the expense of Gregalach. The effects of Easter Hero's original mishap have returned.

### Unhappy Punters

The ups and downs of the betting on the Grand National have provided an unhappy inauguration of the flat season for punters who, after having already lost thousands of pounds on the Spring doubles to bookmakers by the scratches of the popularly fancied Lincolnshire candidates, Vautout, Corduroy, and Le Phare, will now be finally routed. Their hopes had been dashed, revived, and then, after the encouraging report of yesterday's gallop and the re-hoisting of Easter Hero to the position of favourite, came the news less than an hour afterward that he would be scratched.

### A Complete Riddle

The incidents of the past few days constitute one of the most demoralising pages in ante-post betting history. The race for the Grand National on Friday, which will be watched by the customary huge cosmopolitan crowd, will now be a complete riddle, with Gregalach, Sir Lindsay, and Grakle well-favoured.—Reuter.

### Pachalik's Promise

The Newmarket correspondent of the

### FINE TO CLOUDY

To-day's weather report from the Royal Observatory states: The anti-cyclone is central to the E. of Vladivostok. Light variable winds along the S.E. Coast of China, and moderate to light monsoon over the N. China Sea.

Forecast:—N.E. or variable winds; moderate to light; fine to cloudy.

### Rainfall

Rainfall to 10 a.m. to-day nil. Rainfall since January 1. 7.19 inches against an average of 5.42 inches.

### Temperature and Humidity

The temperature and humidity at certain specified centres this morning at 6 o'clock were:

	Temp.	Humid.
Hong Kong	65	87
Macao	64	92
Pratas Island	71	85
Manila	72	89
Amoy	62	94
Swatow	60	88
Chefoo	48	100
Shanghai	50	100

London Daily Telegraph wrote on March 1:—

Although Gregalach seems to have improved a great deal since he won the Grand National last season, and I have a big opinion of his chance in this year's race, it will not do to jump to conclusions that he is bound to be the best of Ted Leader's candidates at Antwerp. Both Great Span and Sandy Hook could not be doing better, and they are really live forces for the race.

Nearly all our Lincolnshire Handicap horses are progressing titidly in their preparations. Guards' Parade is a popular fancy here, and his trainer is making special efforts to have him thoroughly fit for the race. He looks well muscled up now, and is going about his gallops with more dash than he has shown since being trained at Headquaters.

I have little hesitation in putting forward the claims of Grandison rather than his stable companion, Navigator, as the latter has had a little trouble with one of his forelegs. Grandison is much the fitter animal of the pair.

Pachalik is satisfying his trainer in his work, and as looks heavier and better than he did last season. After he came from France last year this candidate did not seem to do any too well in our climate, but he seems to have now become thoroughly used to the conditions, and is carrying plenty of muscle and a bright bloom on his coat at the present time.

Porthole has been having the best of the nice pace work he has been indulged in with the three-year-olds Barnetop and Piperio. I have seen little of Leonidas II. as yet, and shall defer passing an opinion upon him until later. Swift Martin has had Telegraf as a companion in most

(Continued on Page 2.)

## THE HEAVY HAND OF YEN HSI-SHAN

BURDEN OF HIS PECCADILLOS TO BE BORNE BY LANDLORD

### PLEDGE WITH FENG YU-HSIAN

Peking, Yesterday.

Yen Hsi-shan, who is busily engaged in raising funds for military purposes, has instructed the Taiyuan, Peking and Tientsin authorities to levy one month's rent from all houses and wharves within a period of 10 days, after the expiration of which owners will be liable to a fine of double the amount levied. Yen Hsi-shan and Feng Yu-hsiang are reported to have signed a contract in which both parties mutually agreed that within a period of 20 years they should not attack each other.

Shanghai, Yesterday.  
Fighting broke out on March 21 at a place 70 li from Kweichow between the troops of Han Fu-kui and Sun Tien-ying. General Han has despatched reinforcements comprising three brigades; the outcome is still undecided. Another report indicates that Sun Tien-ying evacuated Kweichow on March 22.

About 20,000 Kuominchun troops moved on March 21 from Loyang towards Chengchow, but midway between the cities are stationed the troops under Wen Hsun-tai at Hsihshikuan.

### Shansi Troops Repulsed

The Shansi troops despatched for the southern operations number about 120,000 strong, of which four divisions are stationed on the Tai-Pu line, while the general reserve units are concentrated at Shihchiachung, with General Hsu Yung-chang as C.I.C. of the advancing column.

General Hsu Yuan-chun wired on March 22 that a portion of Shansi troops attempted on March 21 to cross the Han River from Yangwu in the north of Honan, but were subsequently repulsed after a short engagement.

Skirmishes took place on March 21 along the Yellow River between the Shantung troops under Sui Chung-cheng and Shansi forces; the latter were driven back yesterday. To facilitate military directions, the 5th Route Army H.Q. under General Ho Ching-chun will be removed to Hsiang Yang, leaving General Ho Ying-ching to direct operations on the Ping Han-line.

Wag Fa-ching, the representative of Wang Ching-wei, arrived at Peking on March 21 and proceeded to Taiyuan on the following day.—Canton News Agency.

### "Desperate Fighting"

Peking, Yesterday.

The Shansi forces claim that Sun Tien-ying, "after desperate fighting," defeated Han Fu-chu near Mamutsi and is pressing Han Fu-chu from the east, while the other Kuominchun troops are moving by Kai-feng to attack him from the west.

They assert that many of Han Fu-chu's forces fled, leaving their arms and ammunition on the field, and also claim that Han Fu-chu is ready to announce his retirement and hand over his troops to a subordinate.

### Yen's Visit Postponed

A message from Taiyuanfu says Yen Hsi-shan is believed to have postponed his visit to Peking. It is expected that Feng Yu-hsiang will shortly go to Chengchow when Yen will also go thither to confer, after which both will go on to Peking together. The garrison commander at Taiyuanfu closed up the municipal and provincial headquarters on the Kuomintang on March 22, on the ground of an alleged plot to disturb the peace of the city.—Reuter.

### New Peking Regime

The Shansi-ites took over the directorate and sub-directorates of the Peking Octroi yesterday.

It is believed that all the Nan-king-ites have by now been ousted from their posts in Peking.

Shanghai, Yesterday.

It is stated here that the real purpose of Chiang Kai-shek visiting Ningpo was a secret conference with representatives of the Northern Navy and the Mukden authorities.

The North China Daily News reports that northern ships under the command of Admiral Shen Hung-li, with three prominent Manchurian officials, are now in the vicinity of Ningpo.—Reuter.

### KOWLOON DOCK THEFT

A Chinese stone breaker was at the Kowloon Magistracy this morning charged with the theft of 45 lb. of bronze mixture, the property of the Hong Kong and Whampoa Dock Co., Ltd. The accused pleaded guilty and was fined \$18 or three weeks' prison.

G. R.

COLLECTION OF TRADE  
STATISTICS

ON AND AFTER APRIL 1, 1930, all Importers and Exporters of Merchandise will be required to declare the nature, amount, and value of the goods imported or exported by them. The declarations are to be made on the import and export declaration forms supplied by the Statistical Office, 2nd floor, Beaconsfield Arcade, where forms in English or Chinese can be obtained.

In filling up these forms, the following points should be noted: "Manner of arrival" or "departure" need only be indicated when goods enter or leave by rail, road, or air. "Description" should follow as closely as possible the classification list which will shortly be published: price 50 cents, obtainable at the Statistical Office. "Weight or measurement" should be given according to the classifier used in the list for each type of goods. "Value" of imports should be the cost of goods as landed, in Hong Kong dollars; of exports, the cost as shipped.

"Country of origin" means origin in present condition, not origin of raw material. Where the country of origin is unknown, the country of shipment should be given. Different classes of goods, or cargo by different steamers, may be entered on a single form if desired, but import and export cargo must be kept separate. The completed declarations must reach the Statistical Office not more than 7 days after bills of lading have been presented at the shipping office (in the case of imports): or, for exports, after the ship carrying the cargo has left the harbour. Thus any firm wishing to send in declarations weekly can do so. They may be sent by messenger or by post.

To enable shipping companies to make their returns, all documents presented to them by importers and exporters, such as bills of lading, mates' receipts, etc., must bear the name and address of the person or firm presenting them clearly stamped or written.

W. SCHOFIELD,

Assistant Superintendent,

Imports and Exports Office.

GRAVE CHARGE MADE  
AGAINST LAWYERMISAPPROPRIATING FUNDS  
ALLEGED

## PRIVATE PROSECUTION

A private criminal prosecution charging Mr. N. A. Ivanow, a Russian lawyer, with misappropriation of funds entrusted to him by a client for payment to Messrs. Eickhoff and Company, was brought by Mr. Dietrich, a German complainant on March 18, in the Provisional Court, Shanghai.

On Mr. Ivanow's application, Judge Chau adjourned the case for a fortnight to enable the defendant to settle the matter out of court. Mr. Ivanow denied the charge and Mr. Francis S. Liu, for the complainant pointed out, that the basis of the prosecution was a receipt for \$1,000 signed by Mr. Ivanow. Mr. Liu went on to say that repeated requests had been made to Mr. Ivanow by the complainant for the return of the money but Mr. Ivanow had invariably temporized, making promises which he had never kept.

The prosecution was brought because all other efforts to settle the matter amicably had proved unavailing. Mr. Liu said, adding that his client was not in court owing to an important business engagement. The complaint filed against Mr. Ivanow reads as follows: "Private Criminal Prosecution—Dietrich versus Ivanow. Then under statement of facts: The complainant retained the accused to settle disputes with his various creditors. On February 4, this year, the complainant handed to the accused, the sum of \$1,000 to be paid over to Eickhoff and Company. In violation of his client's instructions, the accused converted the money to his own use. The accused had made repeated promises to refund the money to the complainant, but such promises have never been fulfilled."

The accused's act in this case constitutes a violation of Article 357 of the Criminal Code of the Chinese Republic which reads: "Whoever commits the offence specified in section one of the preceding Article, against any property in his possession by virtue of his public function or occupation, shall be punished with imprisonment for a term of not less than six months, nor more than five years, and a fine of not more than three thousand dollars may also be imposed."

## Disbarment Asked

"According to Article 4, Paragraph 1, of the ordinance governing lawyers, the accused has disqualified himself to be a legal practitioner. On the above grounds the complainant requests the court to mete out the severest possible punishment."

"The complainant also requests the court to disbar the accused from his professional practice in accordance with the above-named provision of the ordinance governing lawyers. Inasmuch as a procuratorate has not been established in this honourable court, the complainant humbly requests the court to take the matter of disbarment into its own hands. Along with a criminal sentence, the complainant respectfully requests the court to order the accused to reimburse the complainant for the misappropriated sum of money, namely \$1,000."—Shanghai Times.

## MOTOR FATALITY

Revenue Officer Not  
to Blame

## WOMAN'S DEATH

Yesterday afternoon Mr. R. E. Lindsell and a Coroner's jury held an inquiry, at the Central Magistracy, into the circumstances attending the death of a Chinese woman named Chang Tai who died at the Government Civil Hospital on March 15 from injuries received through being knocked down by a motor cycle driven by R. O. G. Merriman.

According to R. O. Merriman, the accident occurred at about 1 p.m., in Connaught Road West. He was then returning to his office from the B.A.T. Godown. When he noticed the woman she was in the middle of the road and accordingly reduced the speed of his cycle to 12 or 14 miles per hour. The woman stood in the road and appeared to be watching him as he approached. Had she remained where she was he could have passed some two or three yards from her. At the last moment, however, she made a dart in front of the cycle toward the pavement. It was impossible then to avoid knocking her down.

Dr. G. H. Thomas of the Government Civil Hospital, deposed that the woman died from a fracture of the skull after which evidence from eye-witnesses was heard. The jury returned a verdict of "Accidental Death," attaching no blame to R. O. Merriman for the accident.

## DRIVER SUMMONED

Colonel Robertson as  
Complainant

At the Kowloon Magistracy yesterday afternoon, Mr. Huggett, jun., was summoned before Mr. T. S. Whyte-Smith, at the instance of Colonel T. A. Robertson, for alleged negligent driving in Hankow Road.

The defendant's father told the Magistrate that his son did not know what he was accused of as he was not stopped at the time the alleged offence was committed, and the summons was not served on him until March 14, which was three weeks after the occurrence.

His Worship accepted this claim that insufficient notice of prosecution had been given, whereupon Col. Robertson agreed to the summons being withdrawn, and defendant was accordingly discharged.

"I Want My Tablets Mummy!"  
Why Give Castor Oil?

When Baby's Own Tablets, The Medicine Children Like, Will Keep Your Little One Happy and Well.

Castor oil is a terror to most children. The very thought of it fills them with dread. Once upon a time there seemed to be no alternative for this nauseating though highly useful medicine. But that time is now past; in Baby's Own Tablets will be found a perfect substitute, and one which the children like.

Absolutely pure, and equally the youngest babe in the family, sure and agreeable. The little one's colic and indigestion, croup and colds, cool feverishness, expel worms, promote restful sleep, good appetite and regular development. Of chemists everywhere, Baby's Own Tablets can also be had post free, 60 cents the vial, from Dr. Williams' Medicine Co., 60, Klange Road, Shanghai.

### ANTI-PIRACY MOVES

#### Military Guards on Steamers

The annual report of the General Chamber of Commerce states: Following the piracy of the s.s. Anking in September, 1928, in which the Chief Officer and Chief Engineer were murdered and upwards of \$80,000 worth of property was taken from the passengers, the Chamber joined the China Association in Hong Kong and Shanghai and the China Coast Officers' Guild in representations through the China Association, London, urging that representations be made to the Foreign Office concerning the urgent necessity for stronger measures for the prevention of piracy and the protection of British lives and trade. It was gratifying to learn, a few hours later, that the War Office, London, had authorised the use of a number of men from the local garrison in each port—Hong Kong, Singapore and Shanghai—to act as anti-piracy guards on steamers.

In April, 1929, recommendations were made and approved by His Majesty's Government and the Shipping Companies were informed that the supply of naval and military guards in British merchant vessels on the China Coast would cease on April 1, 1930, and that after that date shipowners would have to re-assume full responsibility for the internal protection of their ships.

The interested Companies—the Canadian Pacific Railways, Messrs. Butterfield and Swire representing the China Navigation Co., Jardine, Matheson and Co., Ltd., representing the Indo-China Steam Navigation Co., Mackinnon, Mackenzie and Co., representing the British-India Steam Navigation Co., and Douglas Laprak and Co., representing the Douglas Steamship Co., Ltd.—made earnest and repeated representations during the ensuing months to the Naval and Military Authorities, and through them to His Majesty's Government for the continuance of naval or military guards stating that all possible avenues for obtaining guards of various nationalities had been thoroughly discussed, but that properly trained and disciplined guards under naval or military control afforded the only sure safeguard against piratical attack. That this system of protection had proved an unqualified success was manifest by the immunity from piracy experienced on all ships so provided. In the interests of life and property and British trade the Companies most earnestly requested His Majesty's Government to reconsider its decision to withdraw the invaluable and essential assistance being rendered. The Shipping Companies' considered opinion was that the termination of the present effective deterrent to piracy, without replacement by adequate substitution, would lead to a recurrence of the deplorable state of affairs on the China Coast prior to the inauguration of the system now in vogue.

Notwithstanding all appeals, His Majesty's Government advised in January 1930, that they adhered to their decision to withdraw the guards on April 1, and the suggestion was put forward that the Shipping Companies should employ Indian guards supplied from the Hong Kong Police Department. The Shipping Companies maintained, however, that this would only be a return to the unsatisfactory conditions which existed under the Hong Kong Piracy Regulations of 1914 when many of the Indians provided were found to be lacking in discipline and efficiency. Experience has shown that military discipline is essential to efficiency and the Shipping Companies expressed their definite opinion that, to be of effective value, Indians as anti-piracy guards should be ex-soldiers of good record, fully trained and accustomed to military discipline, and that it was of prime importance that they should be recruited by and placed under the control of the Naval or Military Authorities in order that such discipline and efficiency could be maintained. It was essential that each guard on the ships should be in the command of a European N.C.O., and it was suggested that, if it was eventually not possible to detail men for this purpose from the regular troops, it would be practicable to enrol a sufficient number of time-expired men for the necessary duties to be directed by the Military Authorities. Indian guards should form a separate unit, not under their own officers, and not be an extension of the general system of Police guards.

Finally, the Shipping Companies urged that if the withdrawal of the present guards was definitely irrevocable, they should at least be continued until an adequately trained and disciplined force could be effectively formed and be made available for replacement. The Prime Minister was approached by representatives of interested Companies, but decided that British military guards would not be supplied after the end of March 1930. Since, however, judging from a cable published in the local press on March 13, 1930, there is a prospect that an extension of the present arrangements may be granted. In the House of Commons, at question-time, on March 12, 1930, Mr. A. V. Alexander, the First Lord of the Admiralty, said that the date of the cessation of the supply of anti-piracy guards to British merchant ships in China was to be given further consideration in the light of proposals made by the Shipping Companies concerned.

### SHIPPING SURVEYS

#### Regulations for Local Waters

The annual report of the General Chamber of Commerce states: Substantial advance has been made during the year with the difficult question of modifying the conditions of local shipping the Board of Trade Regulations for the Construction and Survey of Passenger Steamships and for the Survey of Life Saving Appliances. The Government proposal is to apply to Class II ships, i.e., those holding the Hong Kong coastal passenger certificate, the survey requirements prescribed by the Board of Trade for "Home trade limits" passenger ships of the "mixed type," but subject to the proviso that the Hong Kong regulations still apply as to the carrying of deck passengers and the life-saving appliances for the same, within the coastal limits.

Many intricate problems are involved in these proposals, and in February, 1929, the General Committee obtained the valuable assistance of a Technical Committee which undertook their examination in detail in upwards of thirty meetings continuing during the ensuing twelve months. The Technical Committee consists of:—

Mr. R. M. Dyer, Chief Manager, Hong Kong and Whampoa Dock Co., Ltd.; Mr. F. J. Shervell, Shipyard Manager, Talkoo Dockyard and Engineering Co., Ltd.; Captain A. C. Kennedy, Marine Superintendent, Indo-China Steam Navigation Co., Ltd.; Mr. F. W. James, Superintendent Engineer, China Navigation Co.; Mr. T. S. Morrison, Surveyor to Lloyd's Register; Mr. R. Hunter, Surveyor to the British Corporation Register of Shipping and Aircraft, (since resigned on departure from the Colony); Mr. T. H. G. Brayfield, Marine Surveyor (who joined the Committee after the first meeting); Captain D. Skinner, who acted for Captain Kennedy on several occasions during the latter's absence, and is continuing on the Committee since Captain Kennedy's departure for home, on retirement.

The Technical Committee has accomplished the first part of its labour in preparing lists of suggested amendments to the Board of Trade handbooks above referred to, in so far as they affect coastal passenger steamers. These have now been forwarded to the Colonial Government, and if they are found to be in the main acceptable it is expected that adaptation of the rules to river steamers and other classes of local craft will be a comparatively simple matter. The General Committee desires to take this opportunity of conveying, on behalf of the Chamber in general and the shipping community in particular, very high appreciation of the valuable and onerous labours of the members of the Technical Committee, and the Drafting Subcommittee thereof, have performed for the general benefit of Shipping in the Port.

### WARSHIPS IN PORT

British warships in port this morning were:—  
In Basin of R.N. Dockyard: Tamar, Bridgewater, Herald, Iroquois, Somme, Saumarez.  
North Arm: Seely, Sandwich.  
West Wall: Suffolk.  
In Dock: Moth.  
Foreign men-of-war in port were:—  
U.S. gunboat Mindanao.  
French Gunboat Argus.  
Chinese Gunboat Kien Yu.  
Portuguese Cruiser Adamastor.  
French Destroyer Marne.

### CONSIGNEES' NOTICES

Consignees of cargo ex s.s. "Fiume-Li" are reminded to take delivery of their goods which will be subject to rent after March 31.  
Consignees of cargo ex s.s. "Bennewis" are reminded to take delivery of their goods which will be subject to rent after April 1.

### LOS ANGELES VISITOR

OWNER TO ARRIVE SHORTLY

The private yacht, Kaimilio, a graceful four-masted schooner with auxiliary engine arrived on Sunday from Los Angeles, which she left on February 2. She has only the skipper and crew on board.

The vessel is the property of Captain Melville, who is expected by the s.s. President McKinley.

The yacht has a net tonnage of 561 tons and is in the command of Captain A. Peters, with a crew of 15. The vessel is registered in Los Angeles.

### PRES. MCKINLEY

#### Prominent Visitors to the Colony

Mr. C. J. Ferguson, en route to Hong Kong. He is connected with the Andersen Meyer & Co.

Mr. J. Mandracchia, en route to Hong Kong, who is connected with the National City Bank.

Captain and Mrs. W. Melville, en route Round-the-World. They are stopping over at Hong Kong. Captain Melville is owner of a four masted auxiliary schooner now in Hong Kong.

Mr. W. H. Warner, en route to Hong Kong. He is a well known author and playwright, on a pleasure trip round-the-world.

Mr. H. S. Waterman, en route to Hong Kong. He is American Consul at Saigon returning from leave, and is accompanied by his wife and Miss J. Rothchild.

### PASSENGER LIST

#### ARRIVALS

Per s.s. President McKinley yesterday:—

Mr. E. F. Bumut, Mr. C. J. Golden, Mr. A. E. Farmer, Mr. C. J. Ferguson, Mrs. Gray Hill, Mr. and Mrs. G. M. Jose, Mr. S. T. King, Mr. and Mrs. Lester Lewis, Jr., Mr. R. Lock, Mr. G. R. Muir, Mr. J. Mandracchia, Capt. and Mrs. Wilbert Melville, Mr. J. F. Pilcher, Miss Josephine Rothchild, Mr. W. J. Stoham, Mr. R. P. Whitman, Mr. and Mrs. W. H. Warner, Mr. and Mrs. H. S. Waterman, Mr. Allan Winchell.

#### MOVEMENTS OF STEAMERS

The s.s. Fiume sailed from Singapore on March 18, and is expected here on March 25.

The s.s. Venezia sailed from Penang on March 22, and is expected here on April 2.

The M.V. Japanese Prince from New York sailed from Shanghai on March 23, and is expected here on March 26.

The P. & O. s.s. Rajputana left Singapore for this port on March 23 at 9 a.m. with the outward English Mails, and is due here on March 27 at about 10 a.m.

The C.P.S. R.M.S. Empress of Russia arrived at Yokohama on March 23 (Sun.) at 5 p.m., left Yokohama on March 24 (Mon.) at 9 a.m., and is due at Hong Kong on March 31 (Mon.) at 8.30 a.m. She leaves Hong Kong on March 31 (Mon.) at 5 p.m.

The C.P.S. R.M.S. Empress of Asia from Hong Kong on March 23, arrived at Vancouver on March 23.

Shanghai: 444-445, Kowloon, Hong Kong. Tel. Kowloon No. 115.

Estimates furnished on application.

Hong Kong, April 1, 1930.

## OUTRAGE ON HAIHO

### Junk Men Pillage a Steamer

#### SEQUEL TO A COLLISION

Tientsin, March 15.  
A serious sequel is reported to  
an accident on the Haiho. Two  
Chinese, a man and a woman, were  
drowned and five junks were sunk  
on Wednesday morning, when the  
inward-bound cargo steamer, the  
Hsin Lee (1,200 tons) belonging to  
the Ching Kee Steam Navigation  
Company collided with some junks  
laden with salt while the junk men  
attacked the steamer and beat and  
robbed the officers and members of  
the crew.

The story, as revealed by an  
official of the Company and the  
Master of the Hsin Lee, shows that  
at 11.35 on Wednesday morning the  
steamer, pressed by the strong  
flood-tide currents, collided with  
and sank three salt junks which  
had stopped with a number of  
other similar craft to load at the  
wharf at Nankai. The steamer  
was unable to stop at once owing  
to the strength of the current al-  
though the anchor was lowered.

A crowd of the junk men, num-  
bering about one hundred, indig-  
nant at the sinking of three of  
their vessels, then boarded the  
steamer and broke into the bridge,  
captain's cabin, wireless operator's  
room, and in fact ransacked the  
ship. They tied the hands of the  
Japanese Master (Captain M.  
Sakamoto) and beat him severely  
and then proceeded to beat the  
Second Officer, also a Japanese,  
and the members of the crew.  
Proceeding to smash the instru-  
ments on the bridge, the mob  
succeeded in turning the engine  
signal to astern and the engineers  
in the engine room responded to  
the supposed order with the result  
that the Hsin Lee went astern and  
struck two more junks which sank  
immediately. Ten persons from  
these two junks were hurled into  
the Haiho but all were rescued  
with the exception of one man and  
one woman who were drowned.

The Salt Police then intervened  
and dispersed the crowd and the  
Chinese comprador of the Hsin  
Lee to the Salt Police Station  
where they were kindly treated but  
kept for twenty-four hours.

While the mob of junk men were  
pillaging the ship they stole from  
the captain's cabin about 225 Gold  
yen in paper money, Mex. \$17 in  
cash, a gold watch valued at Mex.  
\$137 and clothing worth about  
Mex. \$150 and also a rug from the  
ship's parlour.

As a result of negotiations be-  
tween the Company and the Salt  
Police, Captain Sakamoto and the  
compradore were eventually al-  
lowed to return to the steamer and  
the Hsin Lee reached Tientsin on  
Thursday evening at about 8.30  
p.m.

Capt. Sakamoto is suffering from  
a badly injured arm while the  
Second Officer's left eye is damag-  
ed and the Chinese comprador has  
a broken finger and forearm. The  
last-named's wrist-watch was torn  
from his wrist.—P. & T. Times.

A marine telephone cable, which  
a well-known Cologne cable con-  
cern is to construct and lay between  
Stralsund (Pomerania) and Malmö  
(Sweden), will contain 170 lines,  
making it possible for eighty-four  
conversations to be carried on  
simultaneously. It is claimed that  
this is the highest number of speak-  
ing circuits yet contained in a  
single marine cable.

### Anti-Piracy Guards

It is a coincidence that, on the same day that we publish an excerpt from the annual report of the General Chamber of Commerce with regard to anti-piracy guards, our cable service should make reference to the same subject. It was stated in the House of Commons yesterday that the cost of anti-piracy guards, if Marines were employed, would amount to £80,000 per annum. We are also informed that a deputation representing the Mercantile Marine Officers' Federation and British Companies trading in China waited on Mr. C. G. Ammon to demand adequate protection against piracy in the China Seas.

It is recalled in the Chamber's report that, following the announcement from Home that the supply of naval and military guards in British mercantile vessels on the China Coast would cease on April 1, 1930, repeated representations were made by the various Shipping Companies interested. It was very properly pointed out to the Imperial authorities that all possible avenues for obtaining guards of various nationalities had been thoroughly discussed, but that properly trained and disciplined guards under naval or military control afforded the only sure safeguard against practical attack. That this system of protection had proved an unquestioned success was manifest by the immunity from piracy experienced on all ships of the fleet. The interests of the shipping companies most earnestly requested His Majesty's Government to reconsider its decision to withdraw the invaluable and essential assistance being rendered. The Shipping Companies' considered opinion was that the termination of the present effective deterrent to piracy, without replacement by adequate substitution, would lead to a recurrence of the deplorable state of affairs on the China Coast prior to the inauguration of the system now in vogue.

The Home Government now quibbles over the cost of providing anti-piracy guards, if Marines are employed for that duty. But, what, after all, is £80,000 a year compared not only with the safety of British vessels but with the saving of British lives? It is all very well for the Under-Secretary for the Admiralty to cite certain estimated costs and then imagine that the last word has been spoken on the subject. It is all very well for the Home Government to put up an Under-Secretary to receive an important deputation and imagine that either the Mercantile Marine Officers' Federation or Companies trading in Chinese waters have received a final knock-out, utterly crushed beneath the bogey of a cost of £80,000 a year. As an insurance premium for the protection of British lives and property £80,000 is a mere bagatelle. And, if the Home Government, in the midst of its Budget embarrassments, is reluctant to vote such a "mighty" sum, let it have resort to the Boxer Indemnity Fund. Why, in any case, should that be devoted either to railway development in China or to the education of Chinese, so long as China is totally unable to suppress pirates of British ships in Chinese waters? We would be surprised if such a suggestion did not raise a chorus of dissension; but, even so, it would leave us cold and unmoved. Protection against pirates there must be. If China cannot afford that protection—and she cannot—then Great Britain has simply got to provide it herself whether she pays the first cost herself or makes China pay through the medium of the Boxer Indemnity Fund or through any other indirect source. If the Chinese will persist in indulging in the pleasures of piracy, they ought to be monetarily penalised by the Powers whose nationals and property are victimised and destroyed. It is time that Great Britain stopped subsidising China in its policy of piracy. The policy of subsidising piracy is a policy of self-destruction.

But, what, after all, is £80,000 a year compared not only with the safety of British vessels but with the saving of British lives? It is all very well for the Under-Secretary for the Admiralty to cite certain estimated costs and then imagine that the last word has been spoken on the subject. It is all very well for the Home Government to put up an Under-Secretary to receive an important deputation and imagine that either the Mercantile Marine Officers' Federation or Companies trading in Chinese waters have received a final knock-out, utterly crushed beneath the bogey of a cost of £80,000 a year. As an insurance premium for the protection of British lives and property £80,000 is a mere bagatelle. And, if the Home Government, in the midst of its Budget embarrassments, is reluctant to vote such a "mighty" sum, let it have resort to the Boxer Indemnity Fund. Why, in any case, should that be devoted either to railway development in China or to the education of Chinese, so long as China is totally unable to suppress pirates of British ships in Chinese waters? We would be surprised if such a suggestion did not raise a chorus of dissension; but, even so, it would leave us cold and unmoved. Protection against pirates there must be. If China cannot afford that protection—and she cannot—then Great Britain has simply got to provide it herself whether she pays the first cost herself or makes China pay through the medium of the Boxer Indemnity Fund or through any other indirect source. If the Chinese will persist in indulging in the pleasures of piracy, they ought to be monetarily penalised by the Powers whose nationals and property are victimised and destroyed. It is time that Great Britain stopped subsidising China in its policy of piracy. The policy of subsidising piracy is a policy of self-destruction.

The Home Government now quibbles over the cost of providing anti-piracy guards, if Marines are employed for that duty. But, what, after all, is £80,000 a year compared not only with the safety of British vessels but with the saving of British lives? It is all very well for the Under-Secretary for the Admiralty to cite certain estimated costs and then imagine that the last word has been spoken on the subject. ### News in Brief

The total output of the Kailan Mining Administration's mines for the week ended March 8, amounted to 102,975 tons, and the sales during the period to 95,766 tons.

The forthcoming wedding is announced of Mr. William James Genill, telephone engineer, of 1, Minden Avenue, Kowloon, to Miss Mercedes Sarah Gecker, of 2, Wing Lok Building, Kowloon.

An interesting lecture on "The Maccabean period in the history of Palestine," was given by Prof. W. Brown to the Arts Association of the Hong Kong University last night.

"I think that the hiring of bicycles for an hour at night is all wrong," stated Mr. Whyte-Smith at the Kowloon Magistracy this morning when he fined a trick cyclist \$10 for reckless riding in Gascolgne Road.

### A.D.C. MATINEE

#### Facilities for School Parties

In regard the matinee performance of "And So To Bed," the China Mail is asked to announce that parties from schools, of not less than 30, will be admitted at half price.

### NEW TOKYO

#### Emperor Tours the City

Tokyo, Yesterday. Brilliant weather favoured the Emperor's inspection of the reconstructed city of Tokyo.

It is estimated that nearly a million people turned out to line the route taken by his Majesty, many tens of thousands arriving from the country districts.

Apart from inspecting the general work of reconstruction, the Emperor visited a number of institutions, including the imposing new Earthquake Memorial Hall, which has been erected on the site of the former Army Clothing Depot, where over 30,000 refugees, who fled there for safety, were burned to death in a ghastly holocaust.

The tour of the city lasted nearly five hours, the crowds in places bursting out into loud "banzais" as the Emperor passed through, but for the most part traditional silent reverence was observed.

By way of precaution the police have temporarily kept in custody about 300 radicals since yesterday.—Reuter.

### FRENCH FLOODS

#### Milliard Francs Grant for Victims

Paris, Yesterday. The Chamber unanimously passed a vote granting a milliard francs for the relief of flood sufferers.—Reuter.

New designs prepared for Richmond Bridge remove all the features in the original plans which were the subject of criticism.

A man on trial in Rome is accused of six murders, perpetrated in 1907. Gabriele D'Annunzio wrote a novel on the drama.

## HOW TO BE HAPPY, THOUGH RICH

[By Mrs. Inge, Wife of the Dean of St. Paul's]

There is nothing over which one should be more spiritual than money!

Naturally, having a family of my own, and a household to run, I think of money considerably all the year round, and not just at holiday-time, which is perhaps a good thing.

Money is the symbol of service. It represents the transformation of the value of labour into the good, kind, or charming things that we can do not only for ourselves, but for all those in whom we are interested. Surely such a symbol deserves respectful consideration?

So much for the meaning, or part of the meaning, of money. We are all agreed, I suppose, upon the desirability of possessing some money. Young people, especially, I think, yearn for it, and it is quite right that they should. It represents to them the power to make so many of their dreams come true.

And, of course, it enables them to fulfil their desire for experience, which is a natural way of development. Also it lets them make themselves attractive and pleasing to look upon, and certainly the desire to please is one of the most touching and lovable qualities that is inherent in youth, one that should find a sympathetic response in every human being who has not forgotten what it means to be young.

With so much then at stake, is it not rather terrible that we have fallen into the habit of wishing to make money, and of thinking out quite wonderful ways of doing so, without learning with at least equal intelligence, and with an equal degree of scientific efficiency, how to spend it?

It seems to me both stupid and dangerous to devote so much time and energy as we do to teaching ways of getting money without supplying people with knowledge as to what to do with it. For, to earn money is not so difficult as to spend it.

I differentiate, of course, between spending it and wasting it. Still greater are the risks of giving money to young people without even demanding that they earn it, and then letting them squander it.

I am not particularly interested in what becomes of their money for their own sake, but it seems to me immoral to have the means to be happy and not to extract the happiness that is there waiting to be snatched.

How can we force money to make us happy? This, as I see it, is the important question.

I remember that, when I was 17 my father, who was Archdeacon of Maidstone, told me that I was to have an allowance, and that I was to spend it as I saw fit, without question or instruction from anybody.

I can still recall the thrill of it, although the allowance was only £20 a year. A sense of wealth and power almost overwhelmed me. I felt suddenly that I was a grown woman, with private and personal interests and means, but a responsible being too, with cares on my shoulders.

I still remember how I rejoiced in the little frocks that I used to make from materials bought with my own funds and the excitement and anxiety that for days preceded my visit to the local tailor to order my winter coat and skirt.

And I think that was a normal attitude for a young girl, and thus I am not quite so shocked, perhaps as people think I should be, when I see young girls of to-day spend rather recklessly on their clothes and pleasures.

In my own case, there was another side to my life, for my dear parents were singularly unselfish people, and I had learned, not from an exhortation on their part but just from watching them, that their view of money was that it could never be a personal possession, but belonged rather where it would do the most good.

Even at 17 I saw that they would have remained relatively poor had they had a million. And, of course, I began to ask myself why, considering that they kept so little for themselves, they were so happy.

And the thing that struck me most was the fact that they really like money just as my husband does—and yet they gave it away with both hands.

Little by little I came to understand that they had pierced the secret of money—the secret that refuses to reveal itself to so many. They loved what it could do and not what it could buy!

I began to try to apply this principle to my miniature "income," and although I could give only pence where they would give pounds, I derived great pleasure even from that.

My children are the same. They have been taught from their babyhood how to spend money, and they do not waste it. They think that it is as immoral to be created as it would be to cheat, and of course they are right.

When money has not been forced to yield every ounce of joy that it could, somebody has suffered an irretrievable loss, whether it is of the pocket or, more important, of the soul.

But how are people to be taught to spend money? My aunt, Mrs. Tait, wife of the archbishop whose memory is still green, originated an idea so beautiful, so simple, that I really think that it should become universal.

My aunt was in London at a time when cholera swept the city, a disaster which left a number of homeless orphans. She founded an orphanage, which was a kind, but not an original idea. But—she was not satisfied with the idea of an institution, and she wanted something warmer and sweeter for the bereaved little ones.

And she had an inspiration. She used all the influence for good that she possessed, and persuaded well-off parents to let their little girls make portegees of the little orphans.

Each little orphan had a little protectress of about her own age, who would write to her regularly, go to see her sometimes if possible, and would send her presents and help her in every way.

The orphans would have been cared for in any case, but the good that it did to the better-off children was immeasurable.

In my own case, I should say that it was my first introduction to the power of money—I was an "associate," and I had an orphan that I used to call "my little girl," which amused my parents, since I was about 12, but I learned to consider the spending of money in relation to her. I was given a certain sum that had to cover any thing that I wished to do for her throughout the year.

Thus I was compelled, even at that early age, to say to myself, "If you give too much now, you will be short of money for her next birthday or her holiday, but if you don't give enough, you will hurt her feelings dreadfully," as the case might be.

The girl who has been brought up with only one such responsibility will never be the heedless little spendthrift who gets through money so rapidly that soon she has not sufficient to let her go about in comfort to enjoy the things her money has bought.

I have known several girls who have bought so many clothes that they could not afford to go out and wear them. And that is an example of the tragedy of not being taught the art of spending in relation to purchasing, of the science of using money.

We should remember that our money will pay omnibus fares as well as taxicabs, and that it is our privilege to make shillings give us as much pleasure, sometimes, as pounds. We are the masters of money, and we must guard against money mastering us.

The rich can be wage slaves as well as the poor, incompetent when it comes to finding inexpensive entertainment, and unable to take pleasure save at a great outlay.

My husband, who has been practically self-supporting since the days when he was at Eton on a scholarship, is made much happier than most men by a true and nice sense of proportion, the proper enjoyment of whatever money he dispenses, be the sum large or small.

He has added to what I shall call my monetary education.

And I would like to think of everybody enjoying money as I have been taught to do.

But above all, let us be sincere about it. Let us admit that we want to be well off, and that the possession of money can turn us into nicer people than the want of it.

I am not quite sure, but I am inclined to believe that I am a new kind of Socialist, for while I do not believe in the Socialist doctrine that nobody should possess private means, I do most certainly believe in money for everybody and better money—that is, better—because it is made to yield more.

Better money—that is what I ask, rather than bigger money, which is what most people ask.

## ROUND THE CINEMAS

## Janet Gaynor's Dressing Room

## IN A WINDMILL

A new vogue was created for film stars on location when William K. Howard instructed his technicians to install Janet Gaynor's dressing room in a windmill erected on the Dutch village set for her newest Fox production, "Christina."

The action of this Dutch story was filmed entirely at Fox Hills. To ensure solid comfort for Miss Gaynor, the director incorporated a dressing room in the selection of buildings for the set. In contrast to its quaint exterior, is the manner in which the windmill was finished inside. The interior is strictly modern. The walls are rich yellow and the woodwork a deep blue, all banded by brightly coloured walls. The furnishings include a spacious dressing table, a lounge, several rustic chairs and tables.

"Christina," which is now the feature at the Queen's Theatre, was written especially for Miss Gaynor by Tristram Tupper, author of "The River" and other novels. Charles Morton and Rudolph Schildkraut have roles.

## "THE UNHOLY NIGHT"

Realism was rampant when Lionel Barrymore directed "The Unholy Night." Ben Hecht's London mystery drama as an all-talking drama by Metro-Goldwyn-Mayer, coming on Thursday to the Queen's Theatre.

A group of British army officers are the centre of dramatic action, and the roles were filled by Roland Young, Ernest Torrence, Gerald Barry, John Loder, Phillip Strange, Richard Travers, John Roche, Richard Tucker and John Miljan, all famous on the stage and recently in pictures.

Of this group of Britons, Young Barry, Loder, Travers, Roche, Miljan, Tucker and Strange were all formerly commissioned officers.

The new picture is a vivid murder mystery with a huge cast. Dorothy Sebastian and Natalie Moorhead play the feminine roles, and Claude Fleming is the Scotland Yard detective who solves the mystery.

## "FIGURES DON'T LIE"

Two active working outfits are enough for any business girl to possess and still be well dressed declares Travis Benton, head fashion designer for the Paramount studios.

"Smart simple costumes are the proper thing for the business girl," declares Benton, who designed the costumes for Esther Ralston to wear in her picture "Figures Don't Lie" now showing at the Majestic Theatre. "All fussy things should be avoided," Benton states emphatically. "Fills are absolutely out of place in the business girl's working wardrobe."

"Two outfits may seem like a meagre wardrobe," Benton says, "but when you consider how these costumes may be changed by accessories you get a different idea. For instance, with her suit, which should by all means be one of the two costumes, the girl can have different waistcoats and jumpers. Then scarfs and handkerchiefs can be used to change the other costume so that it will scarcely be recognised. To have the costume fresh and neat looking is the big thing. Accessories that can be easily changed and that are not at all expensive will do that."

Benton has just returned to Hollywood from London and Paris where he spent some time studying prevailing fashions.

## CIRCUS COMING

## To Open on the Praya Next Week

What is described as one of the biggest and best circuses ever to visit the Colony will open a season at the Praya East Reclamation on April 1.

The attractions include performing tigers, elephants, leopards, bears, zebras, and horses, all trained by Professor K. K. Keelary.

The specialty performers comprise about fifty Europeans and Indians, who do some sensational feats on the trapeze and in the ring.

The circus has been on tour for five years, having started out originally from India. It has since visited many places in the East, and everywhere been well received.

The company arrive on March 30.

## THEFT FROM SHIP

Pointment of Mr. Henry Chilton, Esq., Extraordinary and Minister of the Praya, to the Hon. Sec. to be Ambassador Extraordinary and Minister of the Praya, at Santiago.

## NEW ADVERTISEMENTS

## CHINESE CUSTOMS NOTIFICATION

THE OFFICES AND STATIONS OF THE CHINESE MARITIME CUSTOMS for Kowloon and District will be CLOSED to Public Business on SATURDAY, the 29th March, 1930.

J. M. H. OSBORNE, Commissioner of Chinese Customs, Kowloon & District, York Building, Hong Kong, 24th March, 1930.

## NOTICE TO CONSIGNEES.

## The NEW Dance Music by the BEST Dance Orchestras

Here's how to put sparkle and cheer into the nights you spend at home this month! Buy yourself a flock of bright new Victor Dance Records and play them on your Victor Radio Electro! You'll forget every care you ever had! There's a wide variety of dance records to select from this month. For instance, Nat Shilkret and the Victor Orchestra have just made a couple of thrilling hits from that incomparable talking picture, "The Rogue Song." Leo Reisman and His Orchestra, whom Paul Whiteman once declared to have "the sweetest mix section in the world," offer a pair of tuneful fox trots from the London Revue, "Wake Up and Dream!" There's not a record on the list that won't make you want to get up and dance! Hear all of them at our store!

The Rogue Song—Fox Trot NAT SHILKRET AND THE  
When I'm Looking at You—Fox Trot VICTOR ORCHESTRA  
No. 22252, 10-inch

What Is This Thing Called Love?—Fox Trot  
She's Such a Comfort to Me—Fox Trot

## COLONY'S WATER SUPPLY

DECREASE IN RESERVOIRS  
CONTINUES

### MORE CONSUMED ON ISLAND

The total storage in the island reservoirs on Monday, March 24 amounted to 792.10 million gallons, showing a decrease of 34.07 million gallons during the past week. The amount collected from streams was 14.77 million gallons. The week's consumption amounted to 48.84 million gallons.

### Kowloon Water Supply

The total storage in the mainland reservoirs on Monday, March 24 amounted to 379.37 million gallons, showing a decrease of 2.87 million gallons during the past week.

The week's consumption amounted to 26.26 million gallons, not including 2.71 million gallons supplied to Water Boats at Lai Chi Kok.

The yield from the Shing Mun River and streams during the week was 31.84 million gallons.

### Storage

The following shows the amount in storage (million gallons) on the dates named:

1929	Hong Kong	Mainland
April 22	320.38	136.81
May 6	311.72	121.65

" 17 47.82 | 26.40 |

" 24 48.84 | 26.26 |

\* Highest in Kowloon during period of publication of weekly reports.

† Lowest in Kowloon recorded in 1929.

‡ Highest in Island in 1929.

## FLYER "HOPS OFF"

Van Lear Black Leaves for Shanghai

### A GOOD SEND-OFF

Mr. Van Lear Black, who arrived here on Wednesday afternoon in his Fokker plane, en route to Japan, hopped off from Kai Tak aerodrome early yesterday on the next leg of the journey, to Shanghai.

A few friends and well-wishers gathered to see the flyers leave and they made a good get-away in spite of a rather strong head wind. Mr. Black, in the event of meeting with difficulties, had made tentative plans to land at Amoy, but a cable received later in the day, stated that he had reached Shanghai without incident.

## FLIGHT TO BRITAIN

### Ambitious Plans of Young Australian

Sydney, Yesterday. The twenty-year-old airman D. Smith, flying to Britain, has arrived at Blackall, Queensland. He hopes to reach Calcutta via Batavia, Singapore and Bangkok in three days.

### Earlier News

London, Yesterday. A fifty-year-old New Zealander, named Parkinson, left Lympne in a light aeroplane to attempt to beat Hinkler's record flight to Australia, but crashed fifty miles from Paris.

He was not injured, but his machine was wrecked.

### Two New Zealanders

Port Darwin, Yesterday. The airman Piper and Kaye have arrived here.—Reuter.

[Piper and Kaye, two New Zealanders, set out from London in an attempt to beat Hinkler's record for a flight to Australia, but owing to several mishaps on the way the attempt failed. They left Croydon as long ago as February 9.]

### "Hermes" Engine

The Far Eastern Aviation Company received a cable to-day to the effect that Flying Officers Piper and Kaye, who left England in a "Hermes" Desoutter cabin monoplane on a flight to Australia, arrived yesterday. They say that the "Hermes" engine ran beautifully.

This is the third flight to Australia by Cirrus engine machines which is a convincing proof of the reliability of the products of Cirrus Aero Engines, Ltd.

## OPIUM CASE

### Application for a Rehearing

At the Central Magistracy this morning Mr. D. L. Strellett applied to Mr. R. E. Lindsell for a rehearing of the case in which a Chinese woman named Kwan Foon was fined \$25,000 or 12 months' jail for the unlawful possession of 410 taels of prepared non-Government opium, worth \$4,920, which was found concealed in the hollowed out window frame of the rear cubicle of the ground floor of 65, Pokfulam Road, of which accused was alleged, after some hesitation, to have admitted that she was the principal tenant.

Mr. Strellett made his application to produce that the accused was not the principal tenant.

A Chinese occupying one of the cubicles on the floor stated that the principal tenant was a man named Chan Kam who occupied the front cubicle together with his two wives. Some time before the raid Chan Kam went to the country, leaving his two wives behind.

The Magistrate decided that he could not take any more evidence, but, on the strength of what he had heard, he was prepared to grant a rehearing on Monday next.

### Men of H.M.S. Kent Strike Form

#### A WIN IN SINGAPORE

#### H.M.S. Kent 3 S.C.C. 2

There was no doubting the superiority of the Sailors as a team on Friday last at the Stadium, Singapore but the Club side was by no means a strong one. The sailors played very attractive football, their passing and teamwork being better than that of the S.C.C. but they could not put any finish to their forward work. Egan and Ray, the Kent's wing men, provided some of the prettiest wing play seen on a local ground for some time. The former was particularly good and never a pass which went his way was wasted.

Throughout the first half the paval men were continually breaking through and in splendid formation,

## LOCAL FOOTBALL

### Six League Games To-morrow

#### WILL RECREIO BEAT SOUTH CHINA?

#### Clash Between The Services

[By "Roamer"]

Two Senior fixtures, of the remaining fifteen, are down for decision to-morrow.

South China are at home to Recreio to pull up their February 18 game and it is to be hoped that Recreio will be able to field their team to-morrow and get the game decided as our football season is now on the wane. At King's Park last November the home side were trounced to the tune of four goals, but South China will have to do better than they did against the Police recently if they desire to confirm that form. An interesting struggle should be witnessed, and I predict Recreio having their successful run broken.

The other Senior game is the Club versus the Police. After the Police holding South China to a goalless draw this month I shall expect them to reverse the verdict of their previous meeting. There is little to choose between the sides except that the Police defence has been penetrated more often. They have a chance of getting nearer the "Saints" at the foot of the table by bagging both points which they should do by about the odd goal in three.

#### Division II

An interesting encounter between the Service is to be staged on Navy's Ground at Happy Valley. With the "Gunners" poor sharpshooters I fully expect the Navy to run out good winners. I am hopeful of the Senior Service keeping their goal intact and registering, say, half a dozen of the best, to improve their goal average and continue to threaten the K.O.S.B. for the Junior Trophy.

The Somerset are due at the Stadium to contest the two points with Chinese "A". The "Sets" are up against very strong opposition for they have only lost four points throughout the whole season. On their own ground I predict Chinese "A" sending the "Sets" away pointless.

Ewo beat the Club last Saturday by the only goal scored, so I am expectant of the Club thirsting for revenge for that defeat, but with Ewo having the services of an old Interceptor keeper, I fancy Ewo to continue their run of successes.

The R.A.M.C. will meet Eastern on the Military ground at Sookumpoo, and I predict Eastern having a comfortable victory.

#### FULL PROGRAMME

##### Division I. (4.45 p.m.)

South China v. Recreio, Caroline Hill Ground.  
Club v. Police, The Club Ground, Happy Valley.

##### Division II. (4.45 p.m.)

Navy v. R.A., Navy Ground, Happy Valley.  
Chinese "A" v. Somerset, The Stadium, North Point.  
Club v. Ewo, St. Joseph's Ground, Happy Valley.  
R.A.M.C. v. Eastern, The Military Ground, Sookumpoo.

#### Outstanding Senior Games

The following is the list of outstanding Division I fixtures, including those to be played to-morrow:

Club v. Somerset.  
Navy v. Kowloon. (Points may be awarded the Navy).  
Somerset v. Athletic.  
South China v. Recreio. (To-morrow).

Recreio v. Kowloon.  
Recreio v. Club.  
South China v. Club.  
Police v. Recreio.  
Kowloon v. Somerset. Down for March 29.

## CRICKET

### West Indies' Fine Display

#### THE THIRD TEST

George Town, Feb. 22. The third Test match between the M.C.C. and West Indies opened here in fine weather and on an easy paced wicket before a large attendance. Fernandez won the toss and elected to bat.

The West Indies had made 336 for the loss of two wickets when stumps were drawn for the day.

The West Indies were all out for 471. Headley scoring 114 in 3½ hours. Headley played attractive cricket, hitting all round the wicket and reached the boundary ten times. At the close the M.C.C. had made 120 for seven to which Hendren contributed 56.

George Town, Feb. 24. The M.C.C. were all out in their first innings for 145. At the close of play, West Indies had made 150 for the loss of 5 wickets in their second innings. An appeal for bad light was upheld at 5.15 p.m.

George Town, Feb. 25. The West Indies' second innings of 112 has brought him the distinction of being the first West Indian to secure two centuries in a Test match. The M.C.C. had made 102 for the loss of three wickets when stumps were drawn for the day in bad light.

George Town, Feb. 27. The West Indies scored a convincing victory in the third Test match against the M.C.C. at George Town, the margin being 289 runs. The match was concluded fifteen minutes before time.

The M.C.C., who were faced with the gigantic task of scoring 616 to avert defeat, made the respectable total of 327, which was a distinct improvement on their showing in the first innings.

Hendren again illustrated his usefulness at a pinch by scoring 123 in a chanceless manner. The following are the detailed scores:—

West Indies.—1st Innings	
Hunte, c Townsend, b Wyatt	53
Roach, c Haig, b Townsend	209
Headley, run out	114
Fernandez, c Ames, b Rhodes	22
Sealey, c C. B. Rhodes	0
Wight, b Townsend	10
Constantine, c Ames, b Wyatt	13
Browne, b Voce	22
Jones, c Ames, b Voce	6
S. T. Hill, at Ames, b Haig	3
Francis, not out	5

## HOME RACING

(Continued from Page 1.)

of his gallops, and is almost fit to run now.

Both Umplopagaas and Elton are very fit from their hurdling activities, while San Marino has had some nice pace gallops with Spillbury. Our bottom weight, Lady Starlight, has been hacked about the heath by her trainer, and she appears to be moving with rare dash at the moment. Pachalik appeals to me most, with Guards' Parade as a second string.

### REVISED PRICES

In view of the latest scratchings Mr. Frank Haytor sends the China Mail the revised prices:

Lincolnshire	
9-1 Guards' Parade	10-1
14-1 Pachalik	16-1
16-1 Square Rock	20-1

## RADIO IN CHINA

Nanking, Yesterday. A contract has been signed between the Central Government and the Telefunken Company of Berlin for the erection in Nanking of one of the most powerful radio broadcasting stations in the world, embodying all the latest inventions.

In this connection a number of Chinese radio engineers will shortly proceed to Germany to study the organisation of German broadcasting services and to inspect the leading German electrical concerns.—Reuter.

## TENNIS

### Brilliant Win for Fincher Brothers

#### "H.D." RECEIVES WALK OVER

The Fincher brothers were at the top of their form yesterday, defeating a very formidable pair in the Lo brothers. This match attracted a large crowd to the H.K.C.C. ground and there is no doubt that they were treated to some brilliant tennis at times.

Although they lost the first set at 6-3 after leading 3-1, the Fincher brothers dominated the play in the next three sets by some extraordinarily accurate placing. Even M. W. Lo's powerful forehand drive was wasted on them. The winners were particularly strong at the net, as against the weakness in this phase of the opponents.

The last set provided a fine struggle, the one side struggling for victory and the other for second life. Three all was called, 3-5 in favour of the Lo brothers, then they were on level terms again, and the next two games went to the Fincher brothers amidst applause.

In the Open Singles, H. D. Rumliah received a walk over into the quarter semi-finals, his opponent, Luk Ding-cheung, being forced to scratch owing to an injured hand.

Further progress was made in the handicap events, the results of which are given below.

Results in detail:—

Open Championship Singles (third round):—H. D. Rumliah w.o. from Luk Ding-cheung.

Open Championship Doubles (third round):—E. C. and E. F. Fincher beat M. W. and M. K. Lo 3-6, 6-2, 6-2, 7-5.

Club Championship (third round):

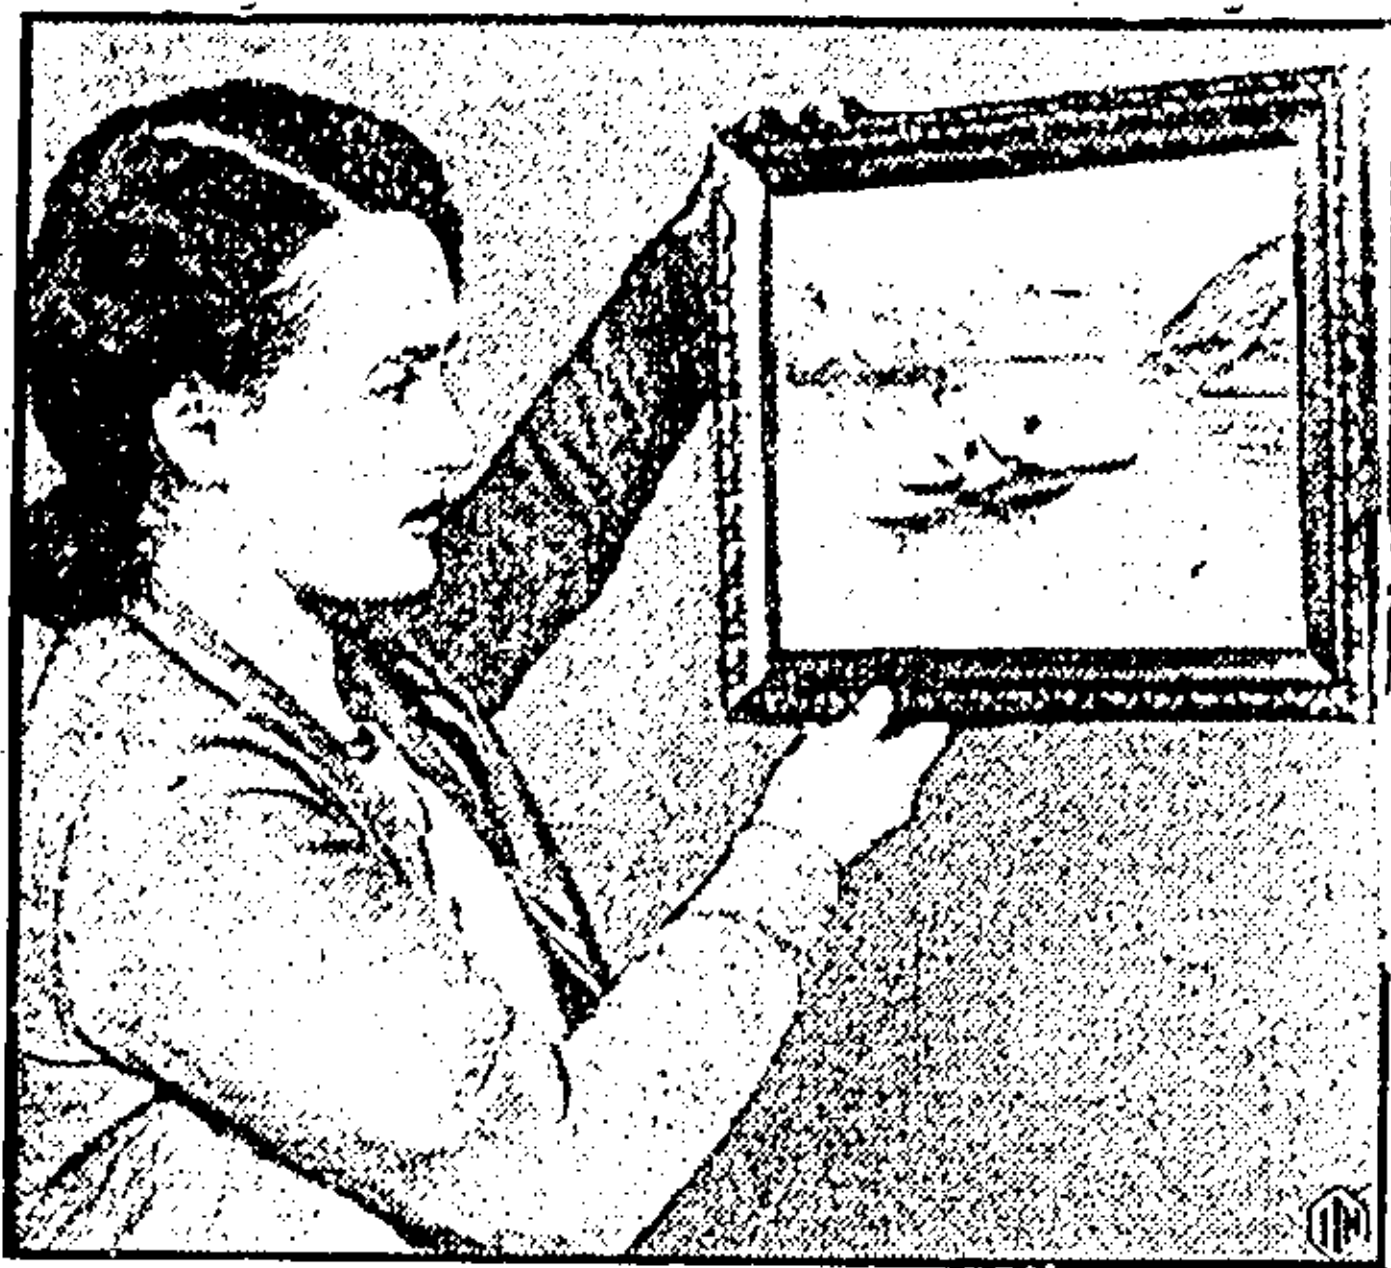

# World News In Pictures

Battles for Life—and Wins

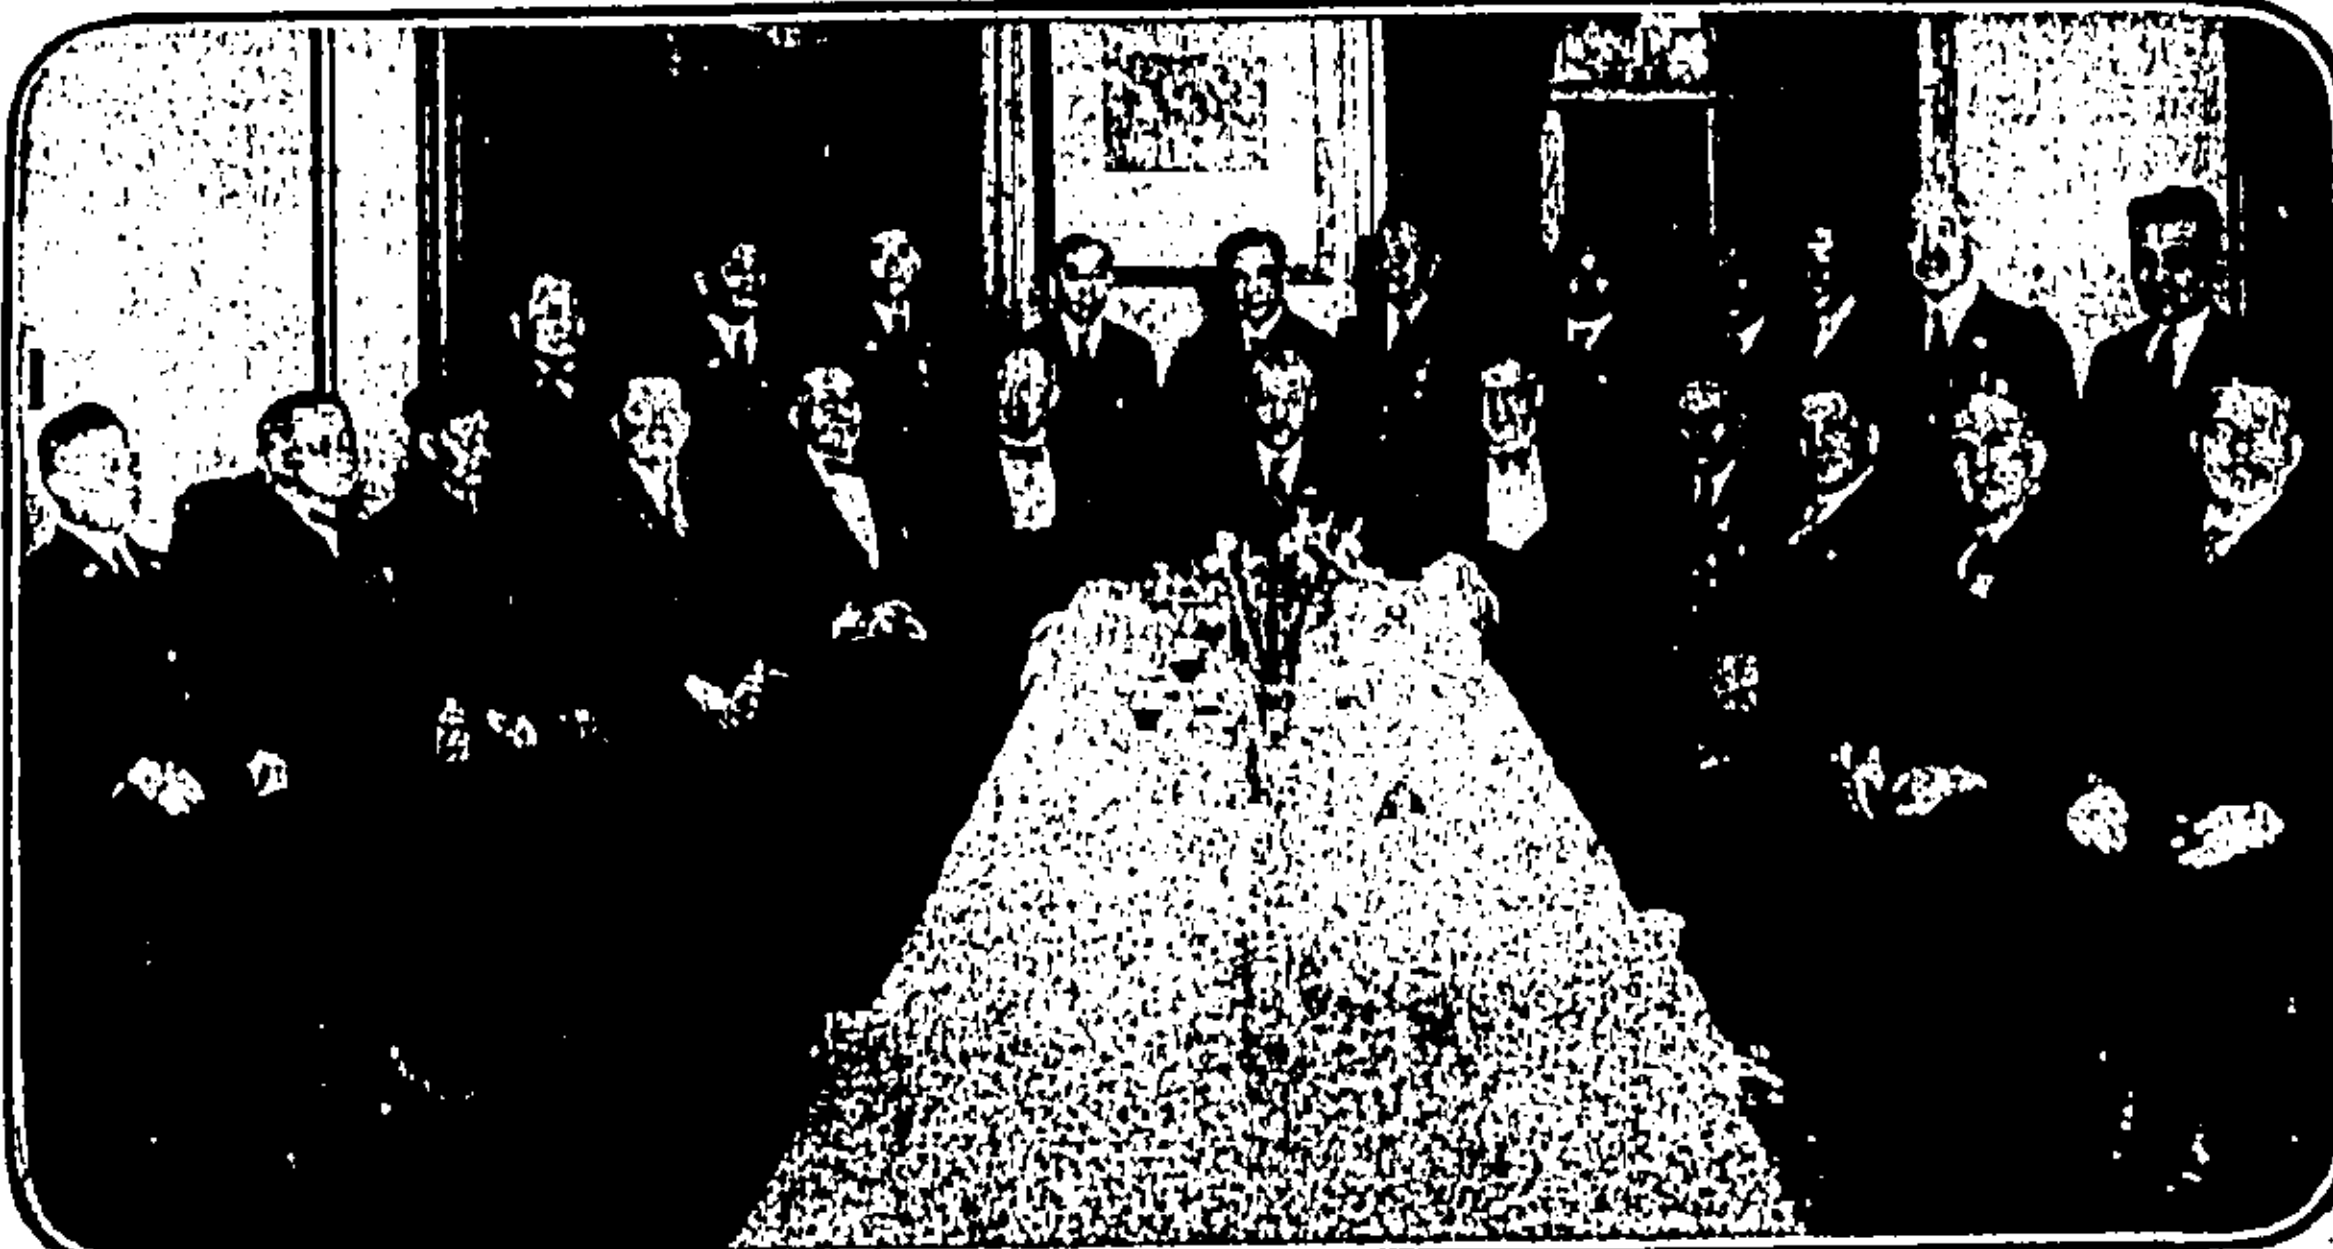

Little seven-year-old Leona Smith rests weakly but happily on her cot in a hospital, following one of the most daring bids that science can make for the life of a human. Probing dangerously close to the heart, Dr. Alfred Ullman succeeded in slitting the membranous sac that surrounded the organ, thereby releasing eight ounces of poisonous fluid which had been eating away the life of the little girl.

Native Paints Rustic Beauty

A Greenland scene painted by a native whose primitive ideas of beauty overcome the handicap of technique.

The United Spanish War Veterans

The United Spanish war veterans held their annual dinner at the International Recreation Club, Shanghai, when the annual installation of officers took place. Consul-General E. S. Cunningham and Judge Milton D. Purdy were the guests of honour and are shown seated on either side of Mr. Valdemar Olsen, the newly-installed Commander.—(Photo by Ah Fong).

St. David's Day Celebrated in Shanghai

A sumptuous banquet was held at the Majestic Hotel on March 1 by the Welsh Community of Shanghai in celebration of St. David's Day. Mr. Eric Davies, President of St. David's Society, presided and received the guests, who included the Consuls-General of various nations, military and municipal officials, and others.—(Photo by Ah Fong).

Kin of Julius Caesar

Mr. Julius Caesar, a Weymouth, chemist and member of the Town Council, claims to be a descendant of the historic family of Caesars, of which Caius Julius Caesar (who lived around 50 B.C.) was the most famous. He has left for Italy to establish further the authenticity of his claim.

V. C.'s Return on Duchess of Atholl

Fifteen Canadian Victoria Cross holders returned from the Prince of Wales' dinner in London by the Canadian Pacific steamer Duchess of Atholl which arrived at Saint John, N.B., on December 1, inaugurating the winter passenger service season for the port. The photograph taken aboard the Atholl shows: from left to right, squatting: Pte. A. Breton, V.C., Elnora, Alta., Major G. H. Mullin,

V.C., M.M., Moosomin, Sask., Sgt. T. Ricketts, V.C., St. John's, Nfld., Capt. W. H. Metcalfe, V.C., St. Stephen, N.B., Capt. B. H. Goary, V.C., Toronto; first row standing: General W. H. Hill, K.C., C.M.G., C.B., Col. W. H. Harrison, D.S.O., K.C., M.L.A., who welcomed the V.C.'s on behalf of the garrison and the N.B. Command, Canadian Legion, respectively, Pte. M. J. O'Rourke, V.C., Vancouver, Major M. E.

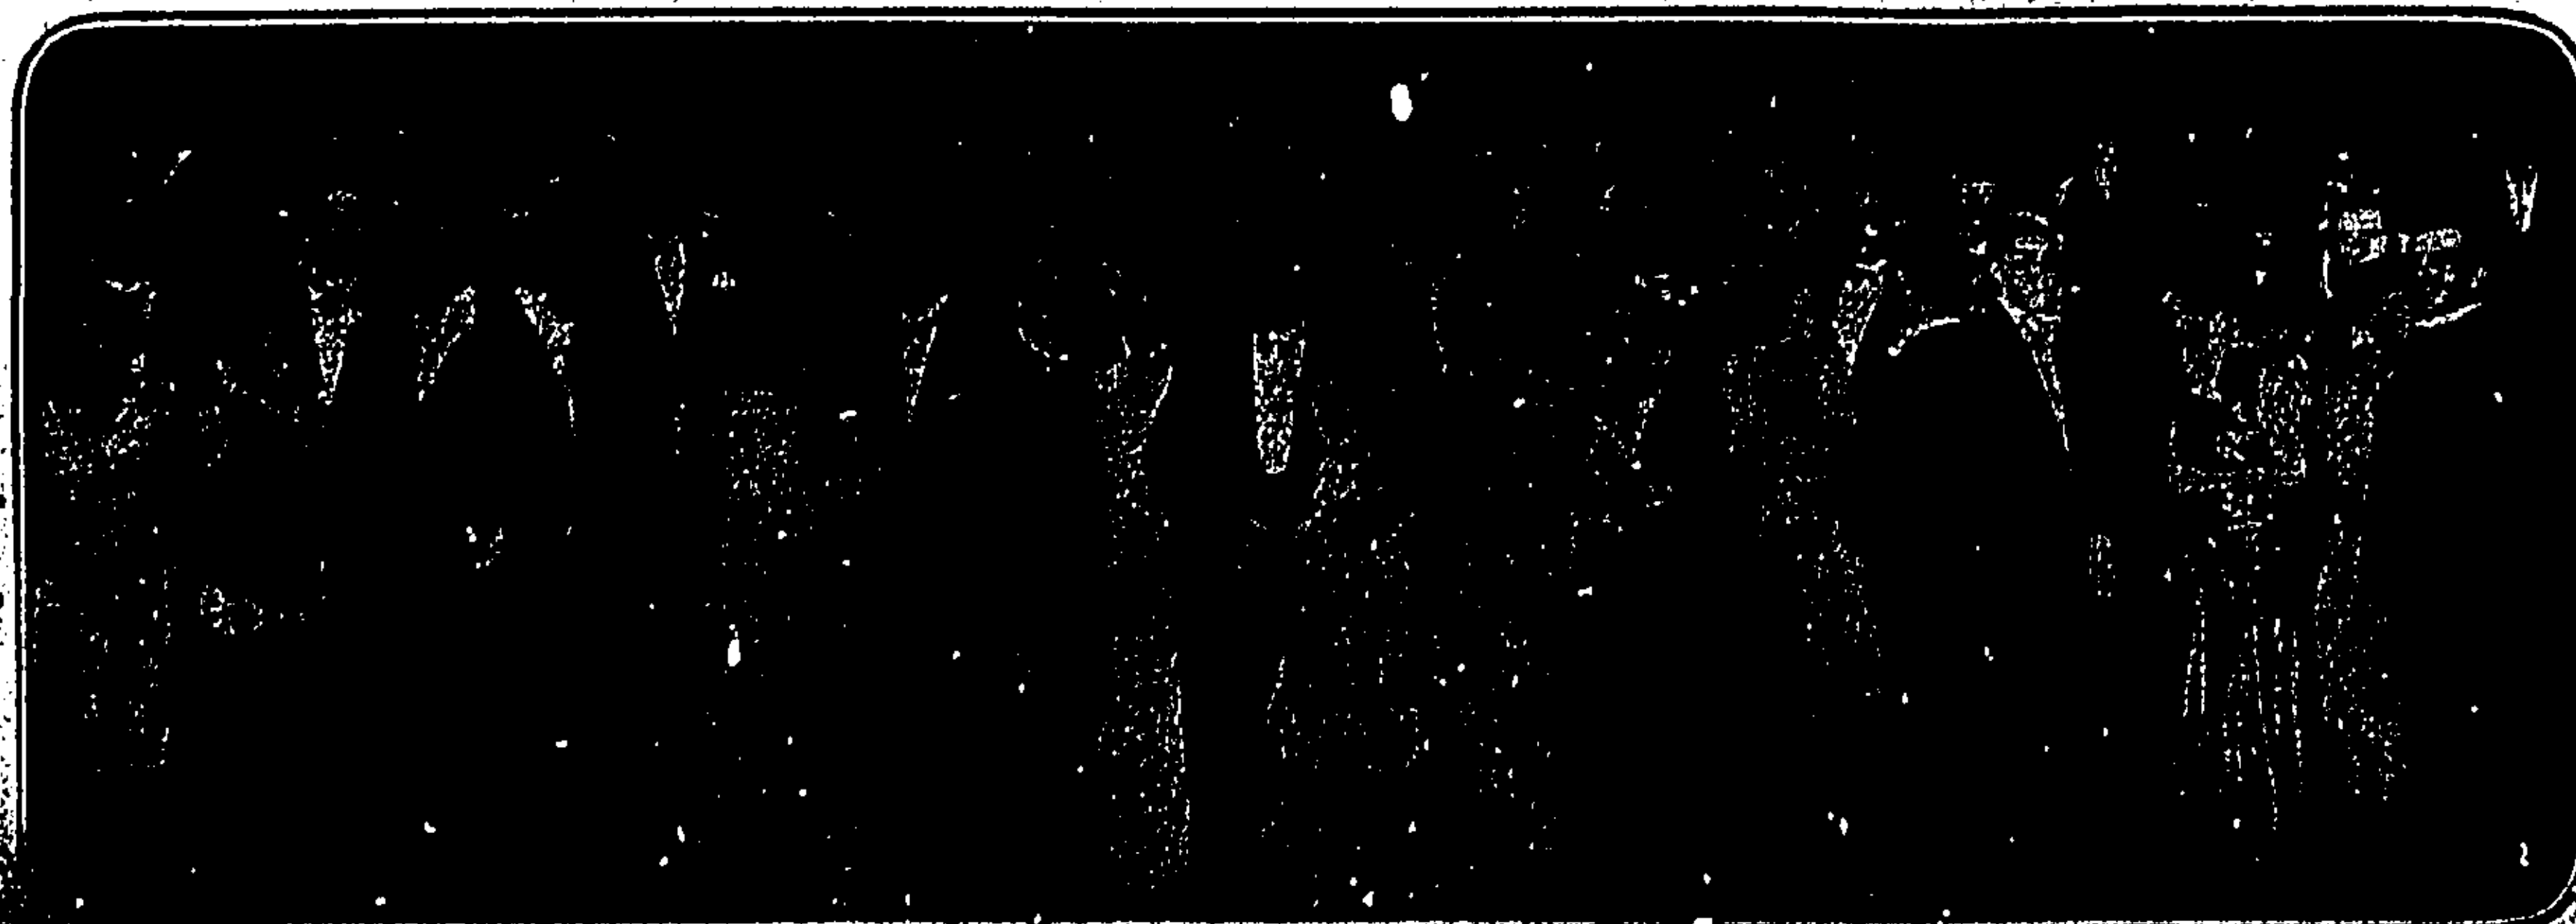

Gregg, V.C., M.C., Apohaqui, N.B., Major E. J. Holland, V.C., Cobalt, Ont., Pte. J. C. Kerr, V.C., Spirit River, Alta., Sgt. H. J. Good, V.C., Bathurst, N.B., Capt. H. C. Best, V.C., Daysville, Sask., Sgt. R. L. Zengel, V.C., M.M., Rocky Mountain House, Alta., Capt. C. N. Mitchell, V.C., M.C., Montreal, Capt. G. E. Kerr, V.C., M.C., M.M., Toronto, Corp. C. Barros, V.C., Toronto.

Baffles Physicians

Miss Violet Michael, eighteen years old, has been crying constantly for more than sixty-five hours, suffering from a diaphragmic spasm. Physicians tried in vain to stop her and were forced to administer ether so that she could obtain a rest from her harrowing affliction.

Third Annual Ball of Municipal Police

The Shanghai Municipal Police Ball was held at the Majestic Hotel, last evening, and was a success, as in previous years. Over 500 guests were present. Mr. J. C. Kerr, V.C., was the guest of honor, and Mr. J. C. Kerr, V.C., was the guest of honor. The ball was a success, as in previous years. Over 500 guests were present. Mr. J. C. Kerr, V.C., was the guest of honor, and Mr. J. C. Kerr, V.C., was the guest of honor.

Sanford Tillotson-L. H. Meredith).  
The Tietze Sisters.  
Vocal trio with piano.

"Prelude and Allemande" (Each).  
"Fugue" (Bach).  
Andres Segovia. Guitar Solo.

7-7:30 p.m.—7th lesson in Cantonese  
by Rev. H. R. Wells.  
7:30-8 p.m.—Experimental Pro-  
gramme.

8 p.m.—Chinese Programme relayed  
from Ko Shing Theatre.  
9 p.m.—Weather Report.

### HELPFUL B.B.C.

#### Leading Public in Right Paths

"The dangerous and fallacious policy of giving the public what it wants in preference to what it should like" was referred to by Sir John Reith, Director-General of the B.B.C., in a paper on "Business Management of the Public Services," read at the Institute of Public Administration Winter Conference at Westminster City Hall.

Referring to the B.B.C.'s problems of policy, Sir John said: "I am as certain as anything that to set out to give the public what it wants, as the saying is, is a dangerous and fallacious policy, involving almost always an underestimate of the public's intelligence and a continual lowering of standards.

"It is not autocracy but wisdom that suggests the policy of prosecuting carefully and persistently a basis of giving people what you believe they should like and will come to like, granting, of course, discretion and human understanding on the part of those who carry out the policy, and resolution."

### Recipe for Contented Cows: Just Radio

Milt Elwell, a New Jersey farm boy, has put over a fast one on his cows. Seems Milt was having cow trouble, especially at milking time. Fussy critters wouldn't stand still now.

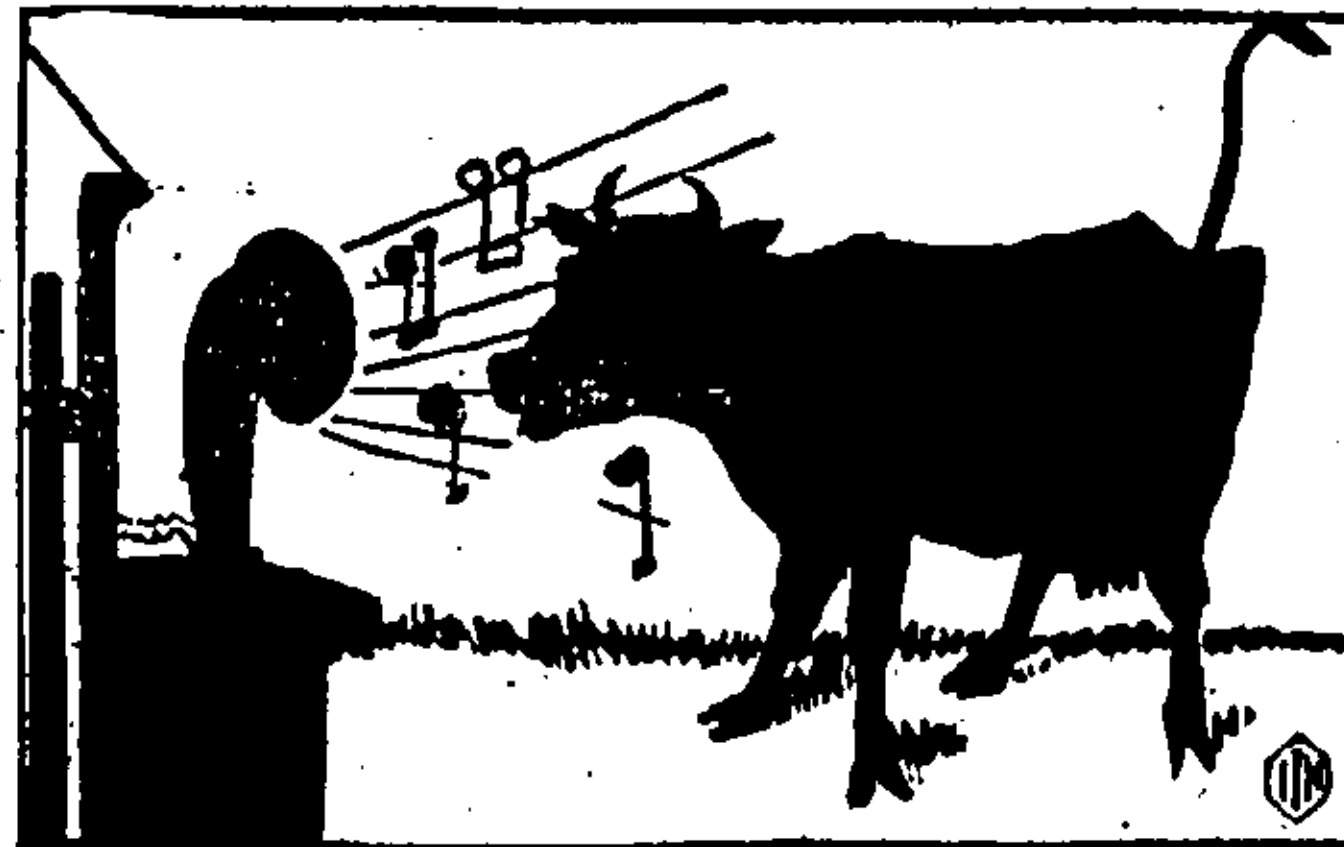

"I'll fix 'em," said Milt. "If they're going to shimmy, consarn 'em, I'll give 'em something to shimmy to."

And he got a radio.

First time he tried it he plugged in on a mammy singer and the cows were too dumfounded to make a move, and he got them milked between that and the Rolled Oats quart. Next morning Milt started milking to the setting-up exercises, and before time for the bedtime story for night watchmen to come or bed finished and the cows were just as contented as cows can be.

Now Milt keeps the radio going most of the time.

"Settin' more milk than ever and gettin' it without a tussle," he said.

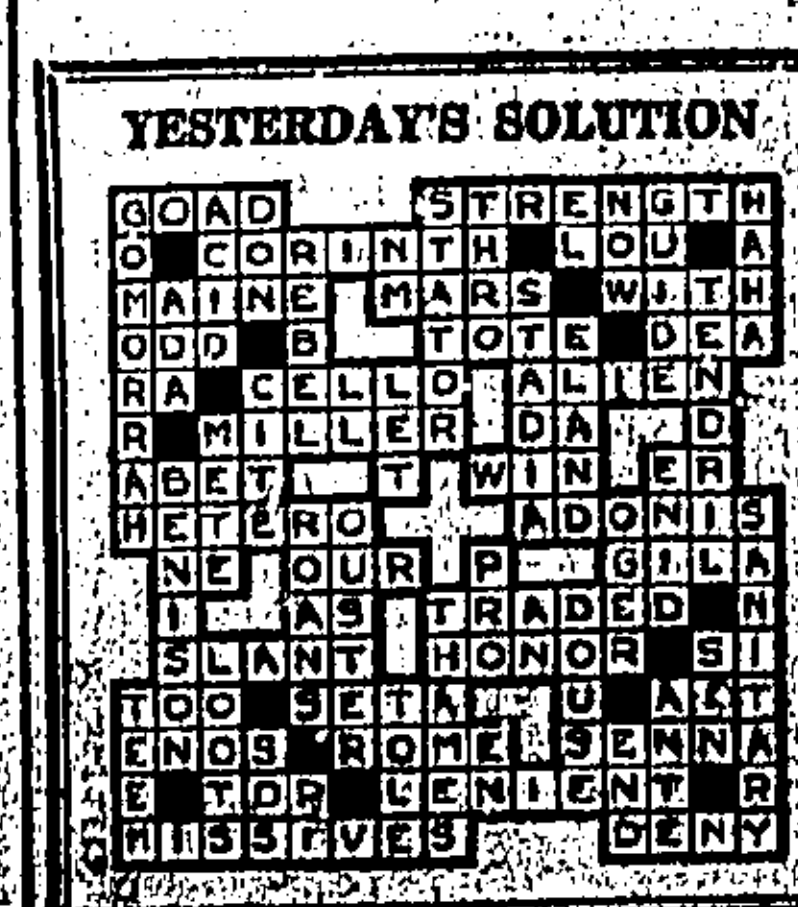

"Nothing like a good sentimental song to soothe a jumpy cow, and when the milkers get drowsy I can switch on to a fast band and get 'em up. Cows like it, too," Milt hopes his cows don't get

### RADIO "FASHIONS" Low Frequency Oscillation

It is frequently a matter of comment that what some people are pleased to call "fashions" in radio apparatus seem to change with somewhat alarming rapidity. "A new kind of valve" they say, "is placed on the market and, no sooner have we purchased one of these valves, than we are told that some other portion of our receiver is out of date and must be replaced."

Now, while it is perfectly true that radio technique is developing and improving so rapidly that in order to keep an equipment constantly up to date, frequent replacement of obsolescent components and occasionally complete rebuilding of the set is necessary, these changes are not dictated by the whims or the rapacity of radio manufacturers. It must be realised that radio is a new and highly scientific industry which has developed during the most active portion of a highly scientific era. It is only natural, therefore, that improvements follow each other with amazing rapidity, but although it is always possible to effect improvements in a receiver which, comparatively recently, represented the high water mark in efficiency, it is not essential to the enjoyment of broadcasting to embody every new invention as soon as it is announced. The latest and most up-to-date models of receivers, speakers and so forth are developed primarily for the service of the new listener or for the established listener whose equipment has become out of date, but all listeners should study technical developments and then, at convenient intervals, review their apparatus in the light of recent knowledge and carry out such renovations or re-modelling as may then seem advisable.

There are, however, some instances where the adoption of a new or improved product immediately renders necessary alteration in some other portion of the set. A case in point is the substitution of the new and more efficient types of valves. During recent years the efficiency of receiving valves has been greatly increased, as may be proved by comparing the mutual conductance or "factor of goodness" of Mullard valves with their counterparts of, say, two years ago. Methods of interval coupling have also been improved with the result that the overall gain per stage in amplifiers has become very large.

When applying these new and more efficient valves to a receiver originally designed to operate with the older and less efficient valves, trouble is often experienced in the form of howling or that curious intermittent popping that has earned for itself the title of "motor-boating." The blame for these troubles should not be laid on the new valves, the fault being in almost every instance due to the fact that the new valves are being used in an old, inefficient receiver. The only reason for this trouble, the correct technical description for which is "Low-frequency Oscillation" is unwanted coupling between stages, which may be due to any one of several causes. In the first place, if the low frequency transformers used for interval couplings are of very old pattern, it is quite likely that there is leakage of a portion of their magnetism, and due to this leakage, a portion of the energy in the circuit of one transformer is transferred magnetically to another transformer circuit, and is re-amplified, this amplification being cumulative and finally resulting in howling or other audible disturbances.

Another possible cause of low frequency oscillation may be the existence of one or more "resonance frequencies" in the characteristic of the low frequency transformer. Some transformers, especially those of early pattern, do not give equal amplification throughout the range of musical frequencies. At one or more definite frequencies, such transformers may give a degree of amplification enormously greater than that over the remainder of the audible frequency band. This fact, combined with the higher overall amplification obtainable with modern valves, may easily give rise to low frequency oscillation.

The only cure for oscillation arising from either of the above mentioned causes is to substitute for the old and inefficient transformers components of modern design and

high performance. A typical example of advanced transformer design is the Mullard "Permacore" transformer which, by the use of a correctly designed core of special high-permeability alloy and by careful calculation of the windings, is free from resonance peaks throughout the audio-frequency band and has negligible magnetic leakage.

Low frequency oscillation is frequently caused by electrical coupling between circuits due to a fairly high resistance common to more than one circuit. Usually a portion of the high tension battery is common to two or more anode circuits and, if the resistance of this common portion is high, the alternating voltage drop across it due to the current in one circuit will be impressed upon other circuits with the result that energy will be fed back from one circuit to another and cumulative amplification with consequent oscillation, produced. The cure in this case lies in ensuring that the various high tension voltages used for the set are obtained through separate voltage dropping resistances from one maximum tapping on the H.T. battery or battery eliminator. In the Mullard P.M. High Tension supply unit for use on alternating current electric light supplies this provision forms an integral part of the apparatus. If a type of eliminator not including such provision is to be used or if the high tension supply is obtained from dry batteries, it is necessary to feed the anode of each valve from the maximum tapping of the eliminator or battery through a separate resistance of such value that the requisite voltage drop is obtained. These resistances should be by-passed to earth by a fixed condenser of 2 mfd. capacity.

Back coupling is sometimes caused by the speaker leads, especially if they are carrying a large anode current. A certain cure in this case is the adoption of a choke filter circuit, which diverts the direct current component of the anode frequency component to pass current, and permits only the audio-frequency current to pass through the speaker leads.

A further cause of low frequency howling is the existence of high frequency currents in the low frequency portion of the receiver. No detector valve works at one hundred per cent. efficiency and in all receivers a very small amount of high frequency energy passes the detector valve into the low frequency amplifier. In most instances undesirable effects due to this high frequency can be avoided by by-passing the primary of the first low frequency transformer with a fixed condenser of about 0.001 mfd. capacity.

## COLONIAL SUGAR INDUSTRIES

### GOVERNMENT NOT PREPARED TO AID THEM

"TOO EXPENSIVE"

London, Yesterday.  
Reports published by the West Indian Sugar Commission headed by the Labour Peer, Lord Oliver, and Sir Francis Watts on the Mauritius industry, upon which the Government's policy is based, recommends a single purchasing agency to purchase all sugar for United Kingdom Imperial sugar at £15 per ton c.i.f. and other sugar at market price, and recommends that the British preference on Imperial sugar should be raised as soon as possible to four shillings eight pence per cwt. watts. Further, the Commission recommends for the Mauritius Government a grant for at least five years equal to the difference between the general cost of production, estimated at £13 per ton, and an average selling price.

The Government statement issued simultaneously declines to anticipate the Budget, but declares that while there is duty on sugar preferences will be maintained, and adds that the Government is not prepared to impose on Great Britain the burden of contributing millions sterling annually to Colonial sugar industries, which would be the case if the reports were acted upon.—Reuter.

## FULL OF DEBRIS

### Search Coolie's Skull Fractured

Ho Ip (19), an earth coolie employed by the Wing On Loong firm of contractors, was removed to the Government Civil Hospital at 4.20 p.m., yesterday in a grave condition suffering from a fracture of the skull. The injury was received through a quantity of debris falling on him from a height of 70 feet whilst he was engaged with others in demolishing a house at the junction of Garden and Bowen Roads.

## MADAME HANAU

### Walked Out of Hospital to Waiting Car

GAVE HERSELF UP

Paris, Yesterday.  
The police are investigating the escape of Madame Hanau. It has been discovered that she, dropped from the window with a sheet not belonging to the hospital and walked out of the gates and entered a waiting private car, which took her to a place where she called a taxi cab.

### Papers Missing

Paris, Later.  
The Minister of Justice's morning mail included a key belonging to a cupboard in the Public Prosecutor's Office, from which papers relating to the Hanau's Investment Trust papers disappeared last night. The police are investigating how Madame Hanau spent the hour from the time of her escape from the hospital until she arrived at the St. Lazare prison. Hanau, with four male associates, comes up for trial on March 29.—Reuter.

## SALE OF GIRL?

### Allegation Against Trio of Chinese

See Ngan Chan, a coolie, Mong Yee-wo, a widow and, Yau Heem, unemployed, man of 58 years, were produced before Mr. T. S. Whyte-Smith at the Kowloon Magistracy this morning, on three separate charges of taking part in the selling of a Chinese girl (12) for a sum of \$175 on December 13.

Det. Sergeant D. Fitches applied for a remand.  
The defendants were accordingly remanded for a week, bail being granted in the sum \$2,000, \$500, and \$500, respectively.  
Mr. Hugh-Jones appeared for the third defendant.

## NO "RED" FIGHT LEFT IN TROTZKY

### EX-LEADER OF REVOLUTION BEGS FOR KINDNESS

LIFE IN DANGER

Berlin, Yesterday.  
Trotzky's condition in Constantinople is much worse. He has telegraphed to friends in Germany and elsewhere that the doctors have not the slightest hope of saving his life unless he can take a drastic cure in Germany or France. His friends accordingly have appealed to the German and other Governments for permission for Trotzky to undergo a cure, saying that he is prepared to pledge abstinence from political activities, which pledge, they say, is scarcely necessary as Trotzky is completely broken down mentally and physically.—Reuter.

## PALESTINE POLICY

### May Be Decided by the Government

LAST YEAR'S DISORDERS

Rugby, Yesterday.  
The Premier was asked in the House of Commons whether the Government had recorded the major questions of policy in Palestine as outside the terms of reference of the Committee which has been investigating last year's disorders.

The Premier replied, "The major questions of policy are for the Government to determine. It was announced in September last that when the report of the Committee had been received the Government would consider along what lines within the terms of the mandate the future policy of Palestine could be directed. That question the Government will consider, but I certainly am not prepared to say that their conclusions will not be affected by the report of the Committee."

Replying to further questions Mr. MacDonald said that after the Government had studied the report they would consider whether to set up a Royal Commission in connection with the future of Palestine or to give a decision themselves on the subject.—British Wireless Service.

## MUI-TSAI CASE

### Mistress Charged with Cruelty

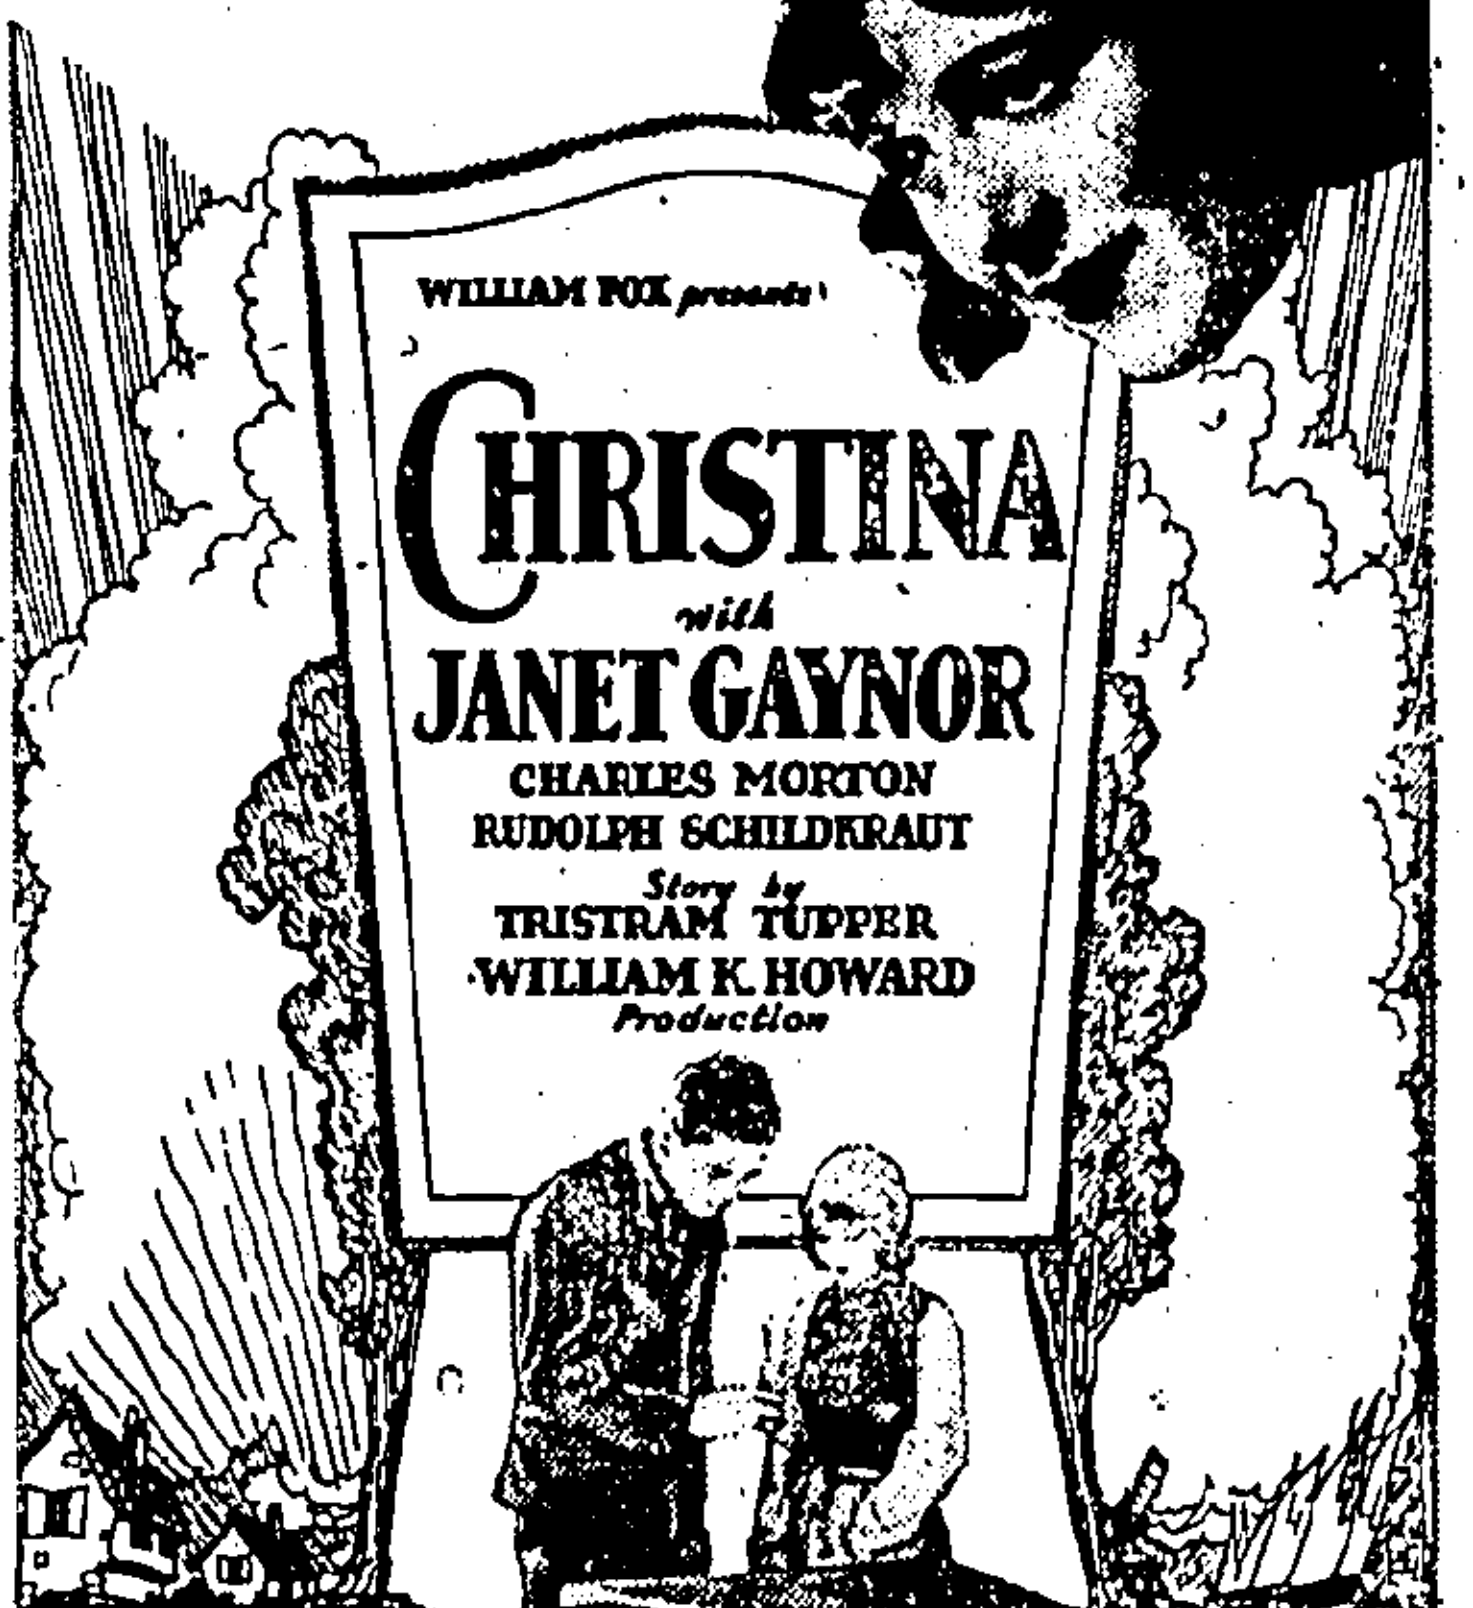

A charge of ill-treating her mistress, named Lai Ngan, by beating her with firewood on March 22, was brought against a married Chinese woman of 105 Woosung Street, at the Kowloon Magistracy this morning.

The case was fixed for hearing on Saturday, at 10.30 a.m.
